Red Rice's.

RED RICE'S—LOS ANGELES, FRIday, January 23. There has been inaugurated a new departure in lounges and couches at Red Rice's. It has been going on for a few weeks. So far, we have not said much about our lounge deal, from the fact that we could not keep up with the demand, but we wish to say, and emphasize the say, that at Red Rice's you will find the prettiest, best made and most fashionable lounges and couches ever put upon the Los Angeles market; furthermore, these beauties are selling for less money than poor, common ones are selling for at the other stores. We will admit that there is a bit of spite work in this lounge business. We have set about to break the prices in lounges, or to sell about all that will be sold in this region. Therefore, if you are in need of anything in the way of lounges or couches, you will be wise to look at stock and prices at RED RICE'S, 143-145 S. Main st. Yes, and you will find at this great bazar about everything else wanted in housekeeping cheap for cash.

A SAD VOYAGE.

Kalakaua Returns to Hawaii a Corpse.

Preliminary Services Over the Remains at San Francisco.

The City Goes Into Mourning and Business is Suspended.

Great Crowds Attend the Funeral at the Church—An Imposing Procession—The Embarkation on the Charleston.

By Telegraph to The Times.

SAN FRANCISCO, Jan. 22.—[By the Associated Press.] The last honors were paid in San Francisco to the late King Kalakaua of Hawaii with the funeral services which took place this afternoon. During half of yesterday and throughout the night the body of the dead King lay in state in the mortuary chapel of Trinity Episcopal Church, where the King had several times attended service since his arrival here on December 4. A guard of soldiers from the Presidio kept watch over the coffin throughout the night, being relieved at intervals.

From early morning the streets in the vicinity of the church were thronged with people, and as the hour of the funeral services approached, they became densely packed. Companies of regular troops and of the National Guard were constantly arriving and wheeling into position. Carriages conveyed to the church the distinguished persons who were to be present at the services, and

AN EAGER, RESTLESS THRONG

of sight-seers pushed to and fro, seeking entrance to the church, which could contain but a small proportion of their number. Half of the church was reserved for the funeral escort, and to the other half was admitted at first only those to whom special invitations had been sent.

The Board of Supervisors of the city held a brief conference with Mayor Sanderson this morning and arranged the various details in perfecting the funeral arrangements. The civic matters were under the charge of Mayor Sanderson, while the charge of all military matters was left to Gen. Gibbon, commanding the Division of the Pacific. The Department of the Superior Court was adjourned over yesterday out of respect to the dead monarch, and the Custom House was closed today from 12 to 2 o'clock. The Produce Exchange and a number of business organizations also adjourned early out of respect to the King.

PROCEEDING TO THE CHURCH.

The guests invited by Mayor Sanderson began to assemble at the Palace Hotel at 12:30 p. m. There was a very large gathering of representative citizens, including Collector Phelps, Shipping Commissioner Morton, consular representatives of foreign governments, and the city government, Chamber of Commerce, Board of Trade, Society of California Pioneers, representatives of the Federal Courts and of the State bench and bar, members of the Scottish Rite of Free Masonry, Knights of Oceanica, members of the Bohemian clubs and other organizations.

They proceeded in a long line of carriages to the church, arriving about 1 o'clock, at which time also assembled the staff of Gen. Gibbon in full uniform. About noon the Post-street door of Trinity Church was opened, and persons having tickets of admittance were allowed to enter. At this time the streets without were almost impassable from the masses of people gathered in the vicinity, and the assistance of mounted police was required to keep clear the entrance to the church.

BEFORE THE SERVICES.

At a little before 1 o'clock Admiral Brown of the Pacific Squadron and staff entered the church, which was then about one-third full, and took seats a few rows back from the front. At 1 o'clock the Golden Gate Commandery, Knights Templar, Col. William Edwards commanding, which had several times entertained the King, and which had been invited by him to attend a grand entertainment in their honor at Honolulu during the coming summer, entered in full regalia and took seats to the right of those occupied by Admiral Brown and party. Admiral Brown, soon after the King's death, had requested that they act as a guard of honor, and that special pall-bearers be selected from that body.

Soon after the carriages arrived at the church and the pall-bearers of the Scottish Rite Masons, representatives of foreign governments, Mayor Sanderson and the Board of Supervisors, judges of the Supreme Court of California, judges of the Federal and Superior courts, federal officials, boards of health and of education, county officers, delegates from the Society of Pioneers and various trade organizations and civic societies entered, taking seats on the left of the center aisle. Some of the representatives of foreign governments were arrayed in their official dress.

DECORATIONS AND FLOWERS.

The church was not decorated save in the chancel, at the back of which were draped the American and Hawaiian colors, and immediately in front of which burned jets of gas artistically arranged in the form of a kingly crown. The rails of the first three pews on the left of the center aisle, which had been set apart for the Hawaiian party, were draped in black, and the chancel was filled with large and choice floral pieces, the offerings of personal friends and of societies of which the King had been a guest or member. That of the Islam Temple of Nobles of the Mystic Shrine, of the Masonic Order, to which King Kalakaua had been admitted but a few days before his death, was among the most noteworthy, being a large shield or banner, bearing, in white hyacinths, a scimetar and crescent, emblem of the order, on a ground of purple flowers, with the word "Islam" in large letters, also composed of white flowers. Above a large crown of flowers rested on the bier, at the base of which was framed the word "Alo-ha." Growing palms and ferns had also been placed along the chancel rail.

THE SERVICES.

At 1:30 p. m. the bells of the church began tolling, and while the organ sounded the solemn strains of the Beethoven funeral march, the clergy, followed by the guard of honor, proceeded slowly down the centre aisle, reading a burial psalm. Just behind them followed colored porters, who carefully bore the coffin, draped in the Hawaiian colors and heaped with flowers, to the bier within the chancel.

Col. Baker of the King's staff, Hawaiian Consul McKinley, several Hawaiian residents of the city and the little party which accompanied the King from Honolulu came next, and took seats reserved for them. They were in mourning, and as the services proceeded frequently gave vent to tears. As the coffin was borne into the chancel, the clergy, comprising all of the ministers of the Episcopal faith in the city with the exception of Bishop Kip, who was ill, and his assistant Bishop Nichols, arranged themselves on either side at a distance, and the augumented choir intoned a chant by Felton. The doors were then thrown open to the public and soon there was not even standing room in the nave of the church.

"DEATH, WHERE IS THY STING?"

The twentieth verse of the fifteenth chapter of St. Paul to the Corinthians, beginning with the words, "Now is Christ risen from the dead," and ending with the words "O, death, where is thy sting; O, grave, where is thy victory?" was read by Bishop Spaulding of St. John's Church. The hymn, "Jerusalem the Golden," was sung by the choir.

Rev. J. Sanders Reed then delivered a short funeral discourse, in which he said that death was but a process of higher development. He closed by addressing Admiral Brown and staff, saying: "Officers of the fleet, speaking, as I may, in the name of the city, we bid you take the remains of this dear man back to his native islands, carrying with you assurances of our sincere sympathy." The choir sang "Rock of Ages," the Credo was repeated by the clergy and those present, and after the benediction the funeral cortége slowly conveyed the coffin to the hearse, and the long line of march began.

FROM CHURCH TO PIER.

The procession formed to move to the water front immediately after the conclusion of the services in the church. The procession was headed by two troops of the Fourth United States Cavalry with the band of the Fifth United States Artillery. Then followed the Second Brigade, California National Guard. The hearse was escorted by the Golden Gate Commandery Knights Templar, and the late King's suite. Gen. Gibbon, Admiral Benham, Maj.-Gen. Dimond and staff came next, and were followed by a long line of carriages containing federal, State and city officials and representatives of mercantile bodies and civic societies. Crowds of spectators gathered along the line of march. Between Powell street and the foot of Market street there were one hundred thousand people who witnessed the procession. There was a total cessation of business along Market street, and all of the business houses were closed.

At the foot of Market street the Second Brigade, California National Guard, formed into line and presented arms as the hearse and escort passed. The cavalry escort, on reaching Washington-street wharf, presented arms as the casket was delivered to Admiral Brown.

THE EMBARKATION.

The lighthouse steamer Madrona was moored at the wharf, and a few hundred yards out in the stream lay the flag ship Charleston. When the procession arrived at the Washington-street pier, a dense crowd of people had gathered there, and the police had difficulty in clearing a space for the cortége to pass. The casket containing the King's remains was placed aboard the Madrona and received by Admiral Brown. The Madrona then steamed out to the Charleston and the casket was transferred to the flag-ship and placed in the after barbettes, under a canopy formed of the American and Hawaiian flags.

In a few moments the Charleston's anchors were weighed and she commenced to move down stream, while minute guns were fired from the batteries at Alcatraz and the Presidio. About 5 o'clock the Charleston passed through the Golden Gate and proceeded to sea.

CHEAPER MEATS WANTED.

A Discussion in the Reichstag Over the Prohibition on Pork.

BERLIN, Jan. 22.—[By Cable and Associated Press.] In the Reichstag today, Barth, a member of the Deutsch Freisinnige party, moved to repeal the prohibition on pork and bacon. Secretary Von Boetticher said that despite the increased stringency of the measures taken in America to suppress trade in bad hog products, there was still no guarantee that Germany would be sufficiently protected from danger of trichinosis. He asserted that 7 per cent. of American hogs were affected with the disease, as against .6 per cent. of German hogs.

Schmidt of the Freisinnige party, urged the necessity of supplying the working people of Germany with American meat, which is considerably cheaper than German meat. Broemi of the Deutsch Freisinnige party held that it was unchristian to make the people's necessities dear in this treacherous manner.

Von Boetticher further said that the English and American people did not eat raw meat, such as is consumed in Germany. The Reichstag then adjourned.

Steinitz is Champion.

NEW YORK, Jan. 22.—The match between Steinitz and Gunsberg for the chess championship of the world was definitely decided in favor of Steinitz by the nineteenth game contested today. The game being a draw, it left the score: Steinitz 6, Gunsberg 4, drawn 9, leaving no opportunity for Gunsberg to catch up.

The Weather in Europe.

LONDON, Jan. 22.—Reports of intense cold and snow still come from Italy. In Austria the weather is somewhat moderated. Wolves, rendered desperate by hunger, are committing great ravages.

Rivers Overflow and Much Damage is Done to Low-lying Property.

A Million-dollar Dam Partly Washed Out in Connecticut.

Fierce Winds Accompany the Storm and Add to the Loss—Trains Stalled and Highways Overflowed.

By Telegraph to The Times.

NEW YORK, Jan. 22.—[By the Associated Press.] Much rain has fallen over New England and the Middle States today and tonight. From many points come tidings of freshets and threatened floods. Bridges are being swept away in Duchess county, N. Y. In the Mohawk Valley there is an immense ice-gorge near Tribes' Hill, and people on the lowlands fear a flood. On the lower Hudson all day the fiercest gale and rainstorm of the season has prevailed and some places are completely flooded.

At Highland Light, Mass., a terrific southwest gale is likely to cause considerable damage in the bay and about Provincetown. A terrific rainstorm, accompanied by high winds, prevailed at Danbury, Ct., doing a vast amount of damage. The Still River has risen and the lower floors of factories are flooded. In all parts of the city cellars are flooded and the streets are almost impassable. The schools are closed and business is practically suspended.

Several washouts occurred on the New York and New England Railroad.

In Waterbury, Ct., the river is rising, merchants are flooded out and factories are closing. The large shop of the Norton Jewelry Company at Chartlet, Mass., nearly completed, was blown to the ground. Near Monson, Mass., the main roads are submerged and piled with ice which has crushed telephone and telegraph poles. Houses and barns are flooded and stock suffering. Several points in Vermont report washouts. This morning water came pouring down from the hills west of Harrington, Mass., and in a short time the sewers were choked up, and the streets, stores and houses flooded, causing great damage.

A terrific rainstorm swept over the Wyoming Valley in Pennsylvania. Over one-third of Wilkesbarre is now under water and traffic is completely suspended on the street railways. The gorge in the Susquehanna River extends thirty-seven miles, and it is feared today that the storm will cause the river to back up and flood the valley. The dam at Hibernia, N. Y., on Wapping Creek, broke, adding the water of a large pond to the already swollen stream. The rush of ice and water moved a large iron bridge on the Central New England road. The iron highway bridge was destroyed, and part of the mill at Hibernia torn away. At Pleasant Valley, people were driven into the second stories of their houses and are only able to get about in boats.

People residing in the vicinity of Cape Henry were terrified last night by the storm. Houses swayed and trees were uprooted. The wind reached sixty-five miles an hour.

This morning the water in the Housatonic and Naugatuck (Ct.) rivers began rising, and by noon seven feet was falling over the dam. The meadows and the Derby Driving Park were flooded. All factories are closed, and sentinels are stationed to watch the dam. This evening the gatehouse on the west end of the long dam began to waver, and five minutes later was twisted around by a mass of ice and snow. A section of the dam three feet deep and 300 feet long went out. An alarm was given and the people rushed from their houses. An immense volume of water rushed down the river and the paper mill and Dagger's postal-card factory were badly damaged. The railroad trestle was carried out and several factories will have to remain closed. Great excitement prevails, but no further serious damage is reported. The dam, which was 500 feet long and 22 feet deep, cost $1,000,000. It is pretty badly damaged. The Derby train is stalled between Ansonia and Birmingham, the water extinguishing the fire in the locomotive.

VALUABLE LETTERS STOLEN.

The Neat Way in Which a Thief Captured a Bank's Mail

CHICAGO, Jan. 22.—[By the Associated Press.] The facts have just transpired in regard to the theft of a very valuable package of letters belonging to the Northwestern National Bank. Yesterday morning the bank's messenger called at the postoffice for the bank's mail. He was given part of it and told to call for the remainder in fifteen minutes. Just before the expiration of that time, a young man, who had evidently overheard the conversation with the messenger, called for the remaining mail. It was given him without question, and nothing else was thought of the matter till the arrival of the regular messenger. By that time the thief had escaped.

It is supposed that the stolen package consisted of about sixty letters, containing from $100,000 to $150,000, mostly in dratts, checks and other non-negotiable papers.

A Woman's Terrible Revenge.

NEW YORK, Jan. 22.—It is stated that Count George Szirmoy of Austro-Hungary, has been in the city three weeks hunting for his 17-year-old daughter, who was stolen from a convent abroad by a former mistress of the count, who thus sought revenge.

Traces of the young countess have been found in the low dens of Thompson street, where it is believed her abductor placed her, but the girl cannot be found.

THE CABLE COMPANY.

No Change in the Situation—Ex-President Holmes's Views.

The financial complications of the Cable company are still the subject of considerable discussion in business circles, and there is much speculation as to the final outcome. There has so far been no change in the operation of the lines, and Receiver Crank says there will be none. The income of the system is more than sufficient to pay all the running expenses, and as soon as the reorganization is completed, and everything cleared up and put in proper shape there will be a surplus to apply to paying off the indebtedness. Mr. Crank has great confidence in the road, and says there is no question but what it will work out its own salvation, if only a little patience and business sense is exercised, nor is there any likelihood of any one losing a cent.

An Associated Press dispatch from Chicago, received last evening, has the following concerning ex-President Holmes:

Speaking of the story in a morning paper about alleged irregular practices in connection with the building of the Los Angeles cable railway system and floating securities, Mr. Holmes says that the New York bond dealers may have sent an agent here to investigate the affairs of the company, but that there was any ground whatever in the transactions for criminal prosecution is absolutely untrue. The bonds were issued with the approval of the stockholders, who also decided that the road should be built by temporary loans, and, when finished, that the bonds should be divided among the stockholders pro rata. The road was so built, but in the meantime money became scarce; the stockholders, with few exceptions, refused to take the bonds, and the notes were left in the banks. Efforts to sell the bonds to outside parties were unsuccessful, because of the general financial stringency. In regard to the alleged misrepresentation of the value of the Los Angeles road, Mr. Holmes says the books were kept in Los Angeles, and in one of the reports sent here there was an accidental clerical error in the 10,000 column that made a great difference in the showing. It deceived him as well as the stockholders. During the first year of the operation of the road Los Angeles was visited by disastrous floods, which made the operation financially disastrous. Still, he says, the city is rapidly growing and the franchise runs fifty years. With little waiting there's no reason why any stockholder should lose a dollar.

A BUSINESS PROPOSITION.

A City Lady Who Required Proof Before Believing.

There recently appeared in the San Francisco *Call*, *Chronicle*, and *Examiner*, a proposition hitherto unheard of in similar business relations. It was nothing more nor less than an advertisement in which the Edwin W. Joy Company, in proof of the curative properties of Joy's Vegetable Sarsaparilla, offered for a limited period to submit it to the terrific test of "no cure no pay." Many accepted, and their letters giving their experience are so convincing as to be almost beyond belief. Here is another, written under date January 6, 1890:—

DEAR SIRS: I accepted your offer to test the merits of your vegetable remedy in sick headaches, and called for a bottle and got it. I had been troubled for a long time, and had tried nearly everything, with little or no effect; but Joy's Vegetable Sarsaparilla acted almost like magic, and the first bottle relieved me from one of the worst cases of sick headache one ever had. MRS. M. B. PRICE,
16 Prospect Place, San Francisco.

We will from time to time publish others of these letters. It is doubtful if any remedy was ever before successfully submitted to such a severe yet convincing ordeal

THE SUPERVISORS.

Fair Amount of Routine Business Cleared Up.

THE POLL TAX ORDINANCE.

The Matter of Clerks for the Police Courts — Alleys and Streets of Rivera — The Pico-Street Road.

The Board of Supervisors met yesterday and transacted considerable business.

The contract and bond of Meiggs & Tebbetts for the construction of the Azusa bridge was approved, and the chairman of the board was authorized to sign the bond on behalf of the county.

A committee comprising Supervisors Davies and Forrester was appointed to confer with a like committee from the City Council as to the feasibility of allowing Justice Owens a clerk for his court and to arrange as to the payment of the salary of such officer.

A petition from the citizens of Pico Heights was presented asking that the county insist that the Electric Railway Company either operate their street-car line regularly or else that proceedings be commenced by the District Attorney looking to the forfeiture of their franchise.

The clerk of the board was directed to officially notify the company that unless they commenced to run cars regularly before March 1, 1891, the District Attorney would be notified to commence proceedings against them for the revocation of their franchise.

On motion of Supervisor Davies, all of the western portion of the Florence Road District was created into a new road district, to be known as the Green Meadows Road District.

M. L. Bennett was made overseer of the above district.

The resignation of R. R. Harris as Justice of the Peace of Santa Monica township was accepted.

A petition for the vacation of certain streets in Azusa was set for hearing February 10.

The petition for the extension of Vermont avenue was also set for February 10.

A petition asking the board to work the streets and alleys of Rivera was referred back to the petitioners for the reason that it was too general. The county is willing to work certain streets, but for them to work all the streets and alleys of Rivera or any other town, is impossible.

A map of Los Angeles county was ordered to be purchased and forwarded to Chicago for the exhibit of Southern California products.

A petition for the vacation of certain streets in Alhambra was referred back to the petitioners to secure further names.

The report of the viewers of the Los Nietos and Whittier road was read and set for February 12.

The following ordinance fixing the rate of poll tax was adopted:

Section 1. There is hereby levied upon each male person over 21 years and under 55 years of age, except all persons who were honorably discharged from service in the army or navy of the United States, at any time between the 1st day of April, 1861, and May 1, 1865, found in each road district of this county, between the date on which this ordinance shall go into effect, as hereinafter provided, and on the second Monday of January, 1891, the sum of $2 as a road poll tax for the current year.

Sec. 2. Every person in a road district in said county who has not paid the said poll tax, mentioned in the preceeding section, in some other district may, prior to the first day of April, 1891, at such time as they shall be called upon by the road overseer of the district in which he resides to perform the same, work out said road poll tax under the direction, supervision and control of the road overseer or road commissioner of said district at the rate of $1 per day. The road overseer or commissioner of such district shall give to each person performing such labor a certificate thereto.

Sec. 3. At the expiration of the time hereinbefore provided for the performance of such labor, said road poll tax shall be due in money from every person liable as aforesaid, not holding a certificate that he has performed such labor, and shall be collected by the various Road Overseers or Road Commissioners in their respective districts, and in the same manner that State poll taxes are collected.

GUILTY OF CONTEMPT.

Chadwick Fined $100 by Judge Smith.

HIS GAUZY STORY DISBELIEVED

The Lockwood Embezzlement Trial —Peculiar Case Before Judge Wade — General Court Notes—New Cases.

"It is the judgment of the Court that you pay a fine of $100 or that you be imprisoned in the County Jail for a period of 100 days."

These were the words that Superior Judge B. N. Smith addressed to J. S. Chadwick yesterday morning in Department One after he had found Chadwick guilty of contempt of court in failing to appear as a witness in a criminal case after he had been snbpœnaed.

Before passing sentence, Judge Smith briefly reviewed the testimony taken in the proceedings. He said that it was plainly evident that Chadwick had been duly subpœnaed and that when wanted to testify he not only did not appear, but could not be found by officers of the law commissioned to bring him into court. He had fled to a foreign country, and his excuse was that he was there looking up mining property. Judge Smith intimated that this subterfuge he could scarcely believe, and stated that in his opinion the defendant had merely gone into hiding for the purpose of being beyond the process of the court until after the Damron trial closed. The judge thereupon found him guilty and passed sentence as above.

F. B. Guthrie, Esq., Chadwick's attorney, made a plea in behalf of his client, asking that the fine be reduced as he is a poor man.

The court declined to modify the order, and Chadwick was then remanded to the custody of the Sheriff until the fine was paid.

The Assistant District Attorney asked that Chadwick be put under bonds to appear as a witness in the cases against Damron to be tried February 16 and February 20 respectively, and in the Lockwood case to be tried March 4. The Judge took the matter under advisement.

Chadwick did not have the required $100 in change with him. In the custody of a deputy sheriff, he went among his friends endeavoring to raise it. He did not succeed, however, and at 2:30 p. m. he appeared in court again with his attorney, Mr. Guthrie.

Judge Smith was asked to grant a five-days' stay of execution of the judgment, until the papers in appeal could be prepared. The court declined to grant the motion.

Mr. Guthrie then asked that a bond for the payment of the fine within five days be accepted, until the papers in appeal could be drawn up. This was also denied.

There was nothing else for the olly Chadwick to do then except to pay the fine or go to jail. He concluded to accept the first alternative and about 4 o'clock he turned up at the Sheriff's office having secured the required coin. He paid in five "twenties" and then was a free man once more.

The lesson taught in this case will certainly be productive of good. Witnesses subpœnaed to testify in criminal cases will not take it into their head to "inspect mines" in foreign countries just about the time they are needed to go on the stand.

LOCKWOOD EMBEZZLEMENT CASE.

The trial of W. C. Lockwood, ex-Justice of the Peace, on an indictment charging him with embezzling the sum of $300 deposited with him as bail money, was commenced in Department One of the Superior Court yesterday.

The indictment is No. 828. It was found on October 13 last. The indictment alleges that on March 24, 1890, Lockwood, in his capacity as a committing magistrate, received from T. W. Morton, a person charged with the crime of robbery, $300 cash bail for his appearance in court on April 8, 1890, for preliminary examination. Morton never appeared and his bail money was forfeited, but it could never be found and never was paid over to the county. Lockwood claims that a few days after the cash bail was paid to him it was drawn down and that a bond was substituted in lieu thereof. But the bond cannot be found, and Lockwood claims that it was lost. How, when or where, no one knows.

Nearly the entire time of the court was yesterday spent in securing a jury. Lawyer R. A. Ling, attorney for Lockwood, in examing jurors asked a great many questions which had no particular bearing on the case, and really the purpose of asking them could not be understood unless it was to ridicule the entire proceeding.

The court interrupted Mr. Ling and gave him to understand that questions of the kind would not be permitted. Ling desisted and finally a jury was secured and sworn.

The first witness called was N. B. Walker, formerly clerk of Lockwood's court. He was not present and could not be found.

W. H. Russell, who arrested T. W. Morton, was placed on the stand and asked a few questions by Mr. McComas. But as the foundation of Russell's testimony was to be laid upon that of Walker the court sustained objections, and Mr. Russell was withdrawn.

A discussion arose as to where the papers in the Morton case, which are really a part of the records of the justice's court, were. Mr. McComas stated that he had searched for them and all that he could find was one lone, solitary subpœna.

Mr. Ling said that Lockwood had just informed him that he had turned the papers over to Mr. Shinn, and that they were at the office of Shinn & Ling.

A Deputy Sheriff was dispatched to bring them into court with an order from Mr. Ling for the papers to be furnished to him. The deputy returned in due time, but without the papers. Mr. Ling said that they had been mislaid, but promised to produce them in court this morning.

Witness Walker not appearing Mr. McComas asked that a recess be taken until today.

Judge Smith notified the attorneys on both sides to be on hand sharp at 9:30 a. m. to-day. He said that he wanted them to have their witnesses on hand and to be prepared to go on with the trial without these tiresome, unnecessary and useless delays.

Finally, at the solicitation of the attorneys, the Judge postponed the hour of reassembling until 10 a. m., especially notifying Mr. Ling to have the papers in the Morton case in court at that hour.

CLAIMS IT WAS FORGED.

A very peculiar case was on trial before Superior Judge Wade and a jury in Department Four yesterday. Anna Love was the plaintiff, and she was suing John Vigarie and M. St. Paul on a promissory note for $600.

The note was produced and introduced in evidence. It bore what purported to be the signature of John Vigarie and M. St. Paul. On the witness stand Vigarie admitted that he had signed the note but denied that it had ever been signed by St. Paul.

St. Paul himself took the stand and swore positively that the signature appended to the note purporting to be his was a forgery. He denied ever having put his autograph to the paper. Vigarie also swore that the note had been altered after he had signed it, and that the words "we or either of us" had been inserted by interlineation.

On the other hand, Lawyer M. V. Biscailuz swore positively that he had seen St. Paul sign the note in his office. Antoine Love also corroborated Biscailuz. The case was given to the jury just before 5 o'clock. Later in the evening a sealed verdict was returned.

CIVIL MATTERS.

The suit of the Placenta Mining, Milling and Water Company against W. A. Menals came up in Department Five of the Superior Court yesterday on a motion of the defendant to dissolve the injunction. There is about $25,000 worth of valuable mining property near Newhall involved in this case. The plaintiff is seeking to estop the defendant from mining for placer gold by a new system. The issue hinges on the title to the ground. The matter was taken under advisement by the court.

The Armour-Cudahy Packing Company yesterday secured a judgment in Department Four of the Superior Court for $2604.42 against R. F. Royal.

In Department Four C. E. Hollingsworth yesterday secured a judgment on foreclosure against A. J. Cleveland for $3124 and an allowance of an attorney's fee of $150.

A FAMILY ROW.

Down at No. 609½ Georgia street, up stairs, they had a genuine, old-time family row yesterday. No. 609½ is a sort of a lodging-house. C. F. Smith and his wife and George Persinger and his wife live in the up-stairs part of the house. The clan of Smith and the house of Persinger came together yesterday. The row arose over who was entitled to the hall. Both factions claimed its use, and a row was the result. There were some hot words passed back and forth. Mr. Smith became very much exasperated and, as Mrs. Persinger alleges, told her that, unless she closed her mouth, he would throw her down stairs.

This was more than Mrs. Persinger could bear. She went to the District Attorney's office and swore out a warrant for Smith's arrest, charging him with disturbing the peace.

After the row, Mr. and Mrs. Persinger went down stairs to appeal to the landlord, Ed Arnaelsteen. The haughty landlord informed them that he wanted them to leave the house, and intimated that he did not think Mrs. Persinger was a good woman.

In saying this Arnaelsteen made a mistake for directly the words had been spoken Mr. Persinger jumped onto him and beat him. Mrs. Persinger did not rem in idle in the meantime, but put in a few licks on her own account.

After the Persingers had worn themselves out Arnaelsteen pulled himself together and came to the District Attorney. He got a complaint, charging George Persinger with battery, and later in the day the party was arrested.

Court Notes.

S. Sylvaney dropped in on a tenant of his yesterday, named John Garnty, who lives on San Fernando street. Sylvaney went to collect his rent. As soon as he made his mission known to his tenant Garnty started at him with a broom. Sylvaney tried to protect himself. In the me ée Officer O'Regan came up and Garnty wanted him to arrest Sylvaney. The officer refused, however, and later in the day Sylvaney made a complaint at the District Attorney's office, charging Garnty with battery.

Superior Judge Smith yesterday overruled a demurrer to the information charging Louis Palma with committing an assault with intent to murder. Palma then entered a plea of not guilty.

Henry Edelman will plead to three indictments charging him with presenting fraudulent warrants to the County Treasurer for payment in Department One on February 3. B. W. Edelman will plead to a similar charge on the same day.

Charles Hawthorne, charged with attempting to rob a United States postoffice, was discharged by United States Commissioner Van Dyke yesterday, there being no evidence against him. Hawthorne called at THE TIMES office last evening and stated that he never intended or tried to rob the East Los Angeles postoffice station. He claims that the clerk, Floyd, insulted him and he informed him that if he repeated it he would slap him. At this Floyd drew a gun, and Hawthorne left hurriedly. This, he claims, is all there was in the matter.

J. W. Ernst got angry, and it is alleged that while in a passion he smote William Griggs. For this he was arrested on a charge of battery, and Justice Stanton will try him next week. Yesterday Ernst had Griggs arrested on a similar charge.

Justice Stanton yesterday held three rancheros, who live in the Cahuenga Valley, Messrs. Erbes, Hermann and Bessmyer, for a high-grade misdemeanor, or to answer before the Superior Court. It is alleged that they obstructed and plowed up a public highway.

Jerry Relehan was found guilty of malicious mischief by Justice Stanton yesterday, and this morning he will be sentenced. Jerry had a bad habit of cutting loose horses that were larlated out and taking them to the pound.

New Cases.

The following new cases were yesterday filed with the County Clerk:

Honorine B. Marion sued E. H. Boyd, John C. Kofold, John C. Roller and others for $7000 and foreclosure of mortgage.

B. F. Ball sued Susan M. Lewis, Harry J. Lewis and Blanche Lewis for $3657.67 and foreclosure.

The Main Street Savings Bank and Trust Company sued Jean Marie Molle and Marie Molle for $1500 and foreclosure.

Rebecca F. Butler sued L. A. Barclay and F. Minott Ward for a promissory note for $2592.

William A. Edwards and David L. Huntington, executors of the last will and testament of Henry S. Schnell, deceased, sued Hattie A. Gilmore, C. G. Gilmore and others for $2300 due on order.

B. Lombard sued E. W. Smith for $3632.78 on a judgment secured.

The East Side Bank sued O. A. Vickery for $6000 due on a promissory note.

The East Side Bank sued William Vickery for $3250 due on a promissory note.

William A. Edwards and David L. Huntington, executors of the last will of Henry S. Schell, sued Richard C. Shaw, James E. Gordon and others for $2500 due on a promissory note.

The County of Los Angeles sued the Southern Pacific Railroad for $20,149.03 back taxes due.

The Main Street Savings Bank and Trust Company sued Januario Avila and others on a note for $3400.

Mrs. H. A. Watson filed a petition asking to be appointed guardian of Alice Winters, an orphan, whose mother died on Wednesday, leaving an estate of $1000.

CHAMBER OF COMMERCE.

Meeting of the New Board of Directors—Secretary Re-elected.

The new board of directors of the Chamber of Commerce met at 3 o'clock yesterday afternoon with Judge Anderson in the chair and Secretary Hanchette present.

The first business before the house was the election of a secretary for the chamber, and Secretary Hanchette was unanimously reëlected.

A communication from the National Board of Trade inclosing a memorial to Congress having in view a greater efficiency of future census enumerations and improved service in obtaining statistical information was read, and the president and secretary of the chamber were instructed to sign for the chamber and forward the document.

A communication from F. B. Aken, asking that the chamber take steps to prevent the county division craze from getting a strong foothold, was read. The document was laid on the table, as the chamber is not desirous of taking any part in politics.

In regard to the visit of W. H. Mills of the Southern Pacific Company, the secretary was instructed to invite him to deliver a lecture during his stay in Los Angeles. Mr. Mill will be here in about a week.

The Citrus Fair Committee will meet at 10 o'clock tomorrow morning.

PROGRESS.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

There is no reason why a woman of 35 or 45 should be faded. Why allow those dark circles about the eyes that rob the face of its bloom, bringing premature wr nkles. Female diseases stamp their impress upon the whole figure. Call and see the European methods used so successfully in my office for years past. Relief felt from first treatment by Mrs. Dr. Wells, "The Clifton," 233 North Broadway, rooms 2, 3, 7 and 9.

SUICIDED IN JAIL.

An Insane Woman Takes Her Own Life.

A MOST DISTRESSING TRAGEDY.

Alida Winters Puts an End to Her Existence with an Overdose of Arsenic—The Sheriff Censured.

An insane woman named Mrs. Alida E. Winters, confined in the County Jail, died yesterday morning about 5 o'clock from the effects of a dose of arsenic taken by herself with suicidal intent. On the 19th inst. Mrs. Winters was taken into custody, on the complaint of a carpenter named C. R. Davis, with whom it is alleged she had been living, as insane. She was examined the same day before Judge Smith, and committed to the asylum at Napa. She was to have been sent North Wednesday morning, but when the Deputy Sheriff called to take charge of her the jailer reported that she had been taken suddenly ill. The county physician was called in, and about 1 o'clock made an examination, when it was discovered that Mrs. Winters had a small bag suspended by a string around her waist, which contained arsenic. The woman shortly after admitted that she had taken poison, saying that she wanted to die. Everything possible was done for her, and at one time it looked as though she would recover, but she had another relapse, and died yesterday morning about 5 o'clock.

Soon after her death the Coroner was notified, and the body was removed to Orr & Suten's, on Spring street, where an inquest was held yesterday afternoon.

After a full and thorough investigation the Coroner's jury found that the deceased came to her death on the 22d day of January from the effect of some irritant poison, supposed to be arsenic, administered by herself with suicidal intent.

But in addition to this which is the usual form of a verdict, the jury returned the following:

"We, the jury, find that the Sheriff of Los Angeles county, by or through his deputy, the jailor, is guilty of gross negligence in not searching the person of said deceased at the time she was committed to his charge, as the evidence produced before us shows that the said deceased had a quantity of arsenic concealed on her person, and recommend a more careful examination of all persons committed to his charge in the future.

"D. Kevane, foreman; T. F. Philbin, Al Cobler, J. J. Del Valle, F. L. Ries, Hugh Ross, C. Edger."

Mrs. Winters was about 35 years of age at the time of her death. She came to this city about five years ago, with some money, which was lost in real-estate speculation, after which she ran a lodging-house at the corner of Fourth and Los Angeles street, where she did very well. She leaves a little daughter, now aged about 5 years.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. REMARKABLE CURES

—MADE BY—

DR. WONG,

At His Sanitarium,

713 S. Main St., Los Angeles, Cal.

I treated with two doctors for six months one said that I had heart disease, the other didn't know what to call my disease; either of them failed to benefit me.

Dr. Wong's diagnosis was that my liver, kidneys, stomach and blood were diseased. I took med cine of Dr. Wong which effected a permanent cure in a few months' time and I have been in excellent health and have worked hard ever since, now five years.

G. P. W. JENSEN,
Alvarado st., near Pico st., Los Angeles, Cal.
November 4th, 1890.

Our little son was taken very sick about two months since, had a high fever and finally a white swelling developed on his neck. Dr. Wong cured him in two weeks' time and completely removed the swelling without cutting or causing the child any pain.

MR. & MRS. G. P. W. JENSEN,
Alvarado st., Los Angeles, Cal.
November 4th, 1890.

For nearly one year I was treated by the most noted physicians of New York City, to whom I paid $25 per day for medical advice. They failed to prevent me from running down. Finally these physicians told my friends that my case was incurable, and that I could not possibly live one year as I was in the last stages of consumption. Dr. Wong cured me in four months' time and I am as well as any man in the world, and have worked hard for two years' time.

C. HASS,
Foreman in Spreckels's Sugar Refinery, San Francisco, Cal.
November 4th, 1890.

Two years ago Dr. Wong cured me of a spleen, liver and stomach trouble in a few weeks. I have been perfectly healthy ever since.

R. JENSEN,
106 B. st., Portland, Or.
November 1st, 1890.

One year ago I was taken sick. I employed three doctors for months, but none benefited me in the least. They told me I had a fever, also that my spleen was the seat of my disease and again that my trouble was all in my bladder. Finally, as the result of an operation I suffered untold agonies. Then I took medicine of Dr. Wong and he got me to my usual weight and strength in two months though my friends considered I was likely to die any day for the first week I was in the hands of Dr. Wong, who says that my disease was blood poisoning, which was produced by the operation of butchery I was subjected to. Experience and observation leads me to believe that Dr. Wong has no equal as a physician in America.

The ocean breeze gives life. Grain and all manner of fruits grow luxuriantly. You may see there fields of maize on which no rain has ever fallen; Egyptian wheat, which is cut down and comes again next season unsown, volunteer barley and oats growing up for hay, and on the lower hillsides and in the vales, oranges, lemons and all manner of fruit."

Are You Willing to Give $4 to Have

Your .:. Health .:. Restored?

We will Guarantee to Refund your Money if you do not derive Benefit from it.

IT MATTERS not how delicate your constitution may be, or what organs are affected. Chronic or acute diseases alike, yield to this new discovery, the secret and great value of which consists in the process of getting at the root of all diseases, by removing impurities from the blood and from the other circulatory vital fluids of the body, thus removing the efficient cause of nearly all the organic disorders and physical irregularities flesh is heir to.

A marvelous triumph over disease, without medicine, is the verdict of thousands who have purchased our Health Pamphlet, and who congratulate themselves that henceforth they are forever done spending money for drugs and for worse than needless doctors' bills. There is perhaps, today, no one living man who can show as many grateful acknowledgments for a personal favor as we can show for having printed our Health Pamphlet and brought it to the attention of the afflicted. Hundreds and hundreds of thank-offerings are now in our files and are open to inspection.

Reader, come and examine these indorsements, and if you doubt their genuiness write to any of them, not, of course, forgetting to inclose stamp for answer.

In selling the pamphlet we are obliged to require a "Pledge of Honor" from those purchasing it, not to show or reveal its contents outside of their own family. This is for our own protection, and is the only means by which our just rights in the discovery can be maintained. Call on or address

THE TIMES ANNUAL FOR CHICAGO

THE TIMES has under way a project for supplying 10,000 copies of its Annual Trade Number for distribution at the Southern California Permanent Exhibit in Chicago. Many citizens—merchants, bankers, hotel-keepers, land men and others—are interesting themselves in the enterprise, and the orders for this superb issue already reach more than 6000 copies since the first two or three large editions were exhausted. The good that can be accomplished by a wide and numerous distribution of the Annual is understood by our people; but more shoulders are needed at the wheel. The rate is $5 per 100 copies, and orders are received on that basis, the papers to be forwarded by us to the manager of the exhibit at Chicago, or otherwise disposed of, as the subscribers may severally direct. Send in your orders, personally or by mail.

THE TIMES-MIRROR COMPANY.

FACTS FOR THE MILLION.

The triple-sheet Annual Trade Number of THE TIMES is now ready. It is nothing less than a mine of information about Los Angeles and Southern California, as can be seen by an inspection of its contents. It is precisely the publication for inquirers about this country. Citizens can accomplish a good work by mailing it in quantities.

A SACRAMENTO correspondent writes that everything seems to point to the selection of Sheriff Hale, of Alameda, as the successor of Warden McComb of San Quentin.

JUDGE SMITH yesterday fined J. S. Chadwick $100 for contempt of court in running away to avoid testifying against J. M. Damron. This is well to let the majesty of the law be vindicated. It is high time.

THE new administration of the street department is starting well. An expensive and unnecessary job of grading, at the cost of the city, on Sand street, has been stopped, and preparations are being made to construct sidewalks on East First street, for which residents in that neighborhood have for two years prayed in vain. There is still plenty of room for beneficial activity on part of the Street Superintendent.

THE KINGDOM OF HAWAII.

By the death of King Kalakaua the attention of the civilized world has been directed anew to the rich and interesting group of islands, lying in the Pacific, of which the dead monarch was nominal ruler. Columns of descriptive matter have appeared in enterprising American journals, more especially in the leading papers of this coast, giving detailed information about the country, the court and the people; so that more is known of them today throughout the world than ever before.

The story of the striking advances in civilization made by the islands and their peoples within a single half century is told anew and read with ever-increasing interest.

From a sketch describing the almost marvelous transformation of that interesting people from a state of barbarism to one of Christian civilization, the following extract is made:

Electric lights, a fine water system and the very best streets in the world are a part of the improvements that have come with the islands' transformation.

The history of the island reads like a romance. Other countries may be as rich in materials for story and poetry as Hawaiinei, but if they are, they are too ancient for authentic history. It is scarcely sixty years since the Hawaiians were a race of idolaters, savage and warlike for all their softening surroundings. In this short time they have been transformed into a God-fearing people, with an unconquerable thirst for knowledge. The old traditions and legends and songs have not had time to fade out, and there still live ancient islanders whose tales of bygone days cause to live in the minds and affections of their race demigods, shrined amid deeds of valor, love and adventure not inferior to those which characterize the heroic ages of the Romans. Kamehameha I. is the connecting link between the traditionary and historic periods, and his name has a dual veneration, in that while intimately associated with the traditions of the past his was the honor of founding Hawaii's first dynasty. The line only became extinct in 1872 with the death of Lunalilo, who was succeeded by Kalakaua.

Kamehameha's federation of the barbaric tribes was an achievement which alone well earned him the monumental statue that adorns the Government Building.

Kaplolani, from whom the present Queen Dowager is descended, is credited with striking the first decisive blow at the faith of the islanders in their false oracles. The early missionaries converted her to Christianity in 1823, but it required two years' time for her to muster up sufficient courage to defy the fire goddess Pele, the avenging spirit of the volcano. Collecting a crowd of influential islanders she dared Pele in her own domain, the interior of the crater, and, after committing a number of sacreligious (in the eyes of the islanders) acts, praised God on the brink of the seething caldron of liquid lava and retired unharmed. This one act had more effect than years of words from the missionaries, and the advances of Christianity were rapid, until today the meanest hamlet is not without its place of worship.

With Christianity came civilization, and so rapid were the strides that in 1843 the independence of the nation was recognized by France and Great Britain, and in 1844 by the United States and the chief countries of both the new and old world.

The condition and progress of the Hawaiian group and its people, and their relations to this and other countries, will always be a subject of keen interest and lively concern to the people and Government of the United States.

The successor of the dead King, Princess Lilinokalani, now the reigning Queen, is acknowledged to be a woman of ability, education and capacity for governmental affairs. She is credited with a partiality for native rule, and with a leaning toward the English, who have a strong hold in the commerce, society, politics and government of the Islands.

The United States may be willing to see Hawaii continue indefinitely as an independent country, and even interfere, if need be, to assist in preserving the autonomy of the kingdom, but we are bound to look with distrust upon the continued growth of English influence in a country so near to our shores geographically, and having such close and friendly commercial relations with our people. Should these fair and fertile islands ever pass under the control of another power, it will be the business of the Great Republic to see to it that no European nation sets up its flag over the land where the royal Hawaiian standard now floats. The kingdom is practically an out-post of the Pacific Slope, and Manifest Destiny points us to our interest and our duty.

THERE is one phase of this county-division business which has been little commented on, but which is, in our opinion, the most outrageous feature of all. It is that the citizens of the county which it is proposed to dismember have no say in the matter, the rights of voting thereon being confined to those residing in the proposed new county. This is most unjust. It is the old question over again of permitting a State to secede from the Union just because it desires to do so. It is equivalent to cutting off a man's arm after asking permission only of the limb.

The law should be changed, to allow all citizens in the counties affected by the proposed change to vote. Then there would be less new counties formed merely for the purpose of making places for office seekers and booming real-estate.

BORUCK has published a long communication in the Sacramento Bee regarding the pardons issued by Gov. Waterman. In concluding, he recommends that the pardoning power be taken from the Governor. The recommendation comes rather late. It is very much like locking the stable door after the horse has been stolen. It is not likely the present century will see another governor of the State who will disgrace himself as Waterman has done.

THE Canadian Pacific is earnest in its efforts to secure a good share of the transpacific business. Its new steamer, built for the service between Vancouver and Japan, has attained a speed of 19½ miles an hour in its trial trip. This will probably lead to competition on part of the American line, and we may expect shortly to see the fast passages of the Atlantic greyhounds duplicated on the Pacific.

THE citizens of Los Angeles, Mr. Glass and the Police Commissioners are to be congratulated on the unanimous reëlection of our efficient Chief of Police. Mr. Glass is the best Chief of Police that Los Angeles has ever had. It had become so much the rule for scandals to crop up in connection with the management of the police department, shortly after the appointment of a new chief, that the people of Los Angeles have scarcely yet been able to realize that they have a police department which is conducted in a thoroughly honest, decent and efficient manner. In view of this good action on the part of the board, the citizens will view with approval the retention of the old board. Our experience in the past has been so unfavorable that we ought to be well satisfied when we get a board that does its duty.

IN THE LEGISLATURE.

We referred last week in condemnatory terms to a proposition which was brought forward by a member of the Legislature to extend the duration of the session from sixty to 100 days. The purpose of this proposed extension is obvious to the most unsophisticated. It was not asked for on account of an overplus of work, because it was not known at that time what the Legislature would have to do. In fact, that body scarcely has an idea even now, on the subject. The proposition is made simply for the purpose of giving the Legislature a further chance to appoint a United States Senator in Senator Hearst's place, should that gentleman survive the natural life of the Legislature. Even if the legislators should work during the extended session without pay, there are a number of heavy expenses which would fall on the taxpayers, and this, simply because the Legislature would like to have the job of naming a successor to Senator Hearst. An attempt may be made to rush this through, and it will bear watching.

Speaker Coombs has surprised the Legislature and pleased the friends of retrenchment by refusing to appoint any more attachés.

The Sacramento correspondent of a San Francisco paper states that Richard Gird, of the Chino ranch, who leads the procession of "Pomona divisionists" had arrived there. Down here it is generally understood that Mr. Gird is "forninst" Pomona county—with the county seat at Pomona.

The Wentworth Bill, to which reference has already been made in THE TIMES, went through in the Assembly on Tuesday by an overwhelming majority. It provides that no speech, statement or publication, reflecting upon a Court or officer thereof, shall be construed a contempt, unless made in the immediate presence of the Judge, and in such a manner as to actually interfere with the proceedings of the tribunal.

The Assembly Committee on Emigration and Immigration has reported favorably Bledsoe's joint resolution, instructing our Senators and requesting our Representatives in Congress to introduce and advocate such measures of legislation as will effectually put a stop to undesirable immigration, to the United States.

The Assembly yesterday killed Bledsoe's Educational Qualification Bill, prescribing that only those able to read and write should be allowed to vote.

Why did the Assembly Committee on Education yesterday report back without recommendation the bill prohibiting the sale of tobacco and cigarettes to minors? That is a question which will occur to many. However opinions may differ as to the injurious effects of tobacco on adults, there can be no two opinions as to the destructive effect of the weed on those whose systems are yet immature.

The bill to permit the construction and operation of electric railroads was passed yesterday. The promised opposition by the "cinchers" did not develop. Such opposition would have been too obviously absurd and mercenary. The bill is retroactive. The matter is of considerable interest in this city.

In the Assembly yesterday, there was a debate on the proposed constitutional amendment relating to the abolishment of the Railroad Commission, which has cost the people from $18,000 to $20,000 a year, or, in all about $200,000. The people pay the commissioners and the railroad pays, them, or a majority of them, also—at least that is the generally-accepted opinion, and it is more or less supported by the history of past commissions. It is too much to expect three average Californians of moderate wealth, or perhaps even in needy circumstances, to withstand the systematized financial allurements of the Southern Pacific (of Kentucky.) The question is made the special order for next Thursday. Better abolish the commission. It only beguiles the people into fancied security by tempting them to rely upon a reed. Like many other features of our present defective constitution, this is an outcome of the sand-lot agitation of Denis Kearney, who was himself quickly "caved down the bank" by the railroad corporations.

THE Board of Supervisors has instructed the District Attorney to bring suit against the Southern Pacific Company for $20,149, taxes levied in 1887 and still unpaid, together with 5 per cent. for delinquency and interest from date of levy until now. There is no apparent reason why railroad corporations should not pay their taxes like private individuals, yet it constantly happens that suit has to be brought against this company by counties which its lines traverse before it will meet its obligations.

THE Oakland Tribune has the following to say regarding the Los Angeles Public Library:

The annual report of the Los Angeles Public Library has been received, and it shows with what energy the people of that city are devoting themselves to the work of improving that institution, which they recognize as an attraction of much force to visitors and others who who have leisure on their hands. A year ago the Los Angeles Library was decidedly inferior to ours, having but 11,028 volumes. During the past year, however, the management has added 7052 volumes, making the total 18,081, which is considerably more than we have in the Oakland library. The cost of the new books and periodicals was $12,220.27, and the salaries and other expenses bring the account up to $20,955.54 for the year.

A CORRESPONDENT asks whether the West Kansas settlers, to whose troubles we recently referred, are receiving sufficient relief from the Government in the way of provisions, etc. to keep them from starving; also if help be sent to the settlers from private individuals, to whom it should be addressed. Perhaps some one who knows the facts will give our correspondent the desired information.

WHAT a plot for a realistic novel is that furnished in a brief dispatch from New York this morning, which tells how the discarded mistress of an Austro-Hungarian count stole his daughter from a convent, brought her to New York and placed her in a low brothel; the father, who is now in that city, being unable to find her. We are daily reminded that truth is more startling than fiction.

STATE POLITICS.

Hunting for Boruck—Levee Districts—Markham's Fearlessness.

[Sacramento Cor. San Francisco Examiner.]

A janitor of the State stationery department, facing the awful prospect of official decapitation, is in pursuit of Marcus D. Boruck, of gubernatorial fame. The chase began at 3 o'clock this afternoon, and Boruck still maintains a most respectable advantage. The stake is a quantity of stationery now in possession of the ex-secretary, but which the janitor seeks to recover.

The trouble arose in this way: It has usually been the practice to allow the newspaper correspondents the quantity of stationery necessary to meet their wants. The frost of economy which has settled on all things, however, blighted their prospects this session, and the Secretary of State has issued no rations. The correspondents agreed that it was right that they should supply their own wants, but this morning Boruck, clothed in his editorial dignity, moved himself into the Senate with an armful of stationery and a triumphant air. He had obtained it on the strength of a weekly journal, of which he is the editor, business manager and sole proprietor. Then the press met and moved in force upon Secretary of State Waite, and the latter acted with dispatch. He informed the gentleman in charge of the stationery-room that he might retire to private life on Monday next, and would also oblige by getting that wad of stationery back.

The dazed young man started off after Boruck, and has been chasing through legislative halls, Sacramento mud and hotel rotundas all afternoon.

Formation of Levee Districts.

[Sacramento Cor. San Francisco Examiner.]

Assembly Bill No. 192, introduced by Capt. F. N. Marion of Los Angeles county, provides for the formation of levee districts and the reclamation of overflowed lands of unnavigable streams. This bill was specially drawn by Capt. Marion to fill the wants of the people of his section of the State.

It provides for the formation of levee districts by the votes of the freeholders, who also select a board of directors. This board upon election files bond with the County Supervisors and then proceeds to designate the boundaries of the district, and are empowered to sell bonds to complete the work of opening, straightening and protecting the channels of the streams to be leveed, assess the cost of construction in the districts and have virtually the same powers as are given to similar boards in the Wright Irrigation Act.

Capt. Marion, in conversation with an Examiner correspondent, said that, unless some such measure as this is passed, the loss to his section of the country during the rainy season will be simply irreparable, and cites the fact that the floods of last year were very destructive to property in Los Angeles county.

The Los Angeles River, just below the city, left its banks and swept across the country through several miles of orange and walnut groves to the San Gabriel River, destroying much valuable farming property by the deposit of gravel and sand which was carried over the land. The people of Los Angeles and Orange counties are in active sympathy with this bill and are petitioning for its passage.

A Governor With Backbone.

[Sacramento Bee.]

The Governor showed his independence yesterday in a way that fairly terrorized a good many people who have taken it for granted that there were things he would not dare to do. To pull down Alex Badlam after he had been appointed by Waterman, and to take the Duke of San Quentin almost literally by the nape of the neck and throw him out, were feats of fearlessness that might have daunted many a man with less backbone without impugning his courage. Hardly less heroic was the withdrawal of the names of the balance of Waterman's appointments. As to J. C. Campbell, it must have been no easy matter for the Governor to throw him over his shoulder along with McComb, but the Governor is said to have reached the conclusion that the Administration could not afford to carry McComb even if it should become necessary to lose the support of substantial and valued friends. After Campbell's appointment by Waterman it is said that Gov. Markham sent for him and desired to learn his feelings in regard to McComb and Chambers. Campbell, it is said, declined to indicate his feelings toward the prison combine, and this was taken to mean that he favored retaining the general in power. Campbell appears to have overlooked the hint that his resignation would be acceptable, and thus it was that the President of the Republican State Convention had to be summarily ejected.

A Junketing Scheme Nipped.

[Sacramento Cor San Francisco Examiner.]

The Assembly wrestled with the junketing scheme again today, and refused to permit a committee to leave Sacramento at the State's expense. Marion of Los Angeles asked permission to leave with the entire Committee on Reformatory Institutions for the southern part of the State in order that a thorough inspection of the public buildings there might be had. Objections came from every side, and the desired permission was refused by a vote of 51 ayes to 25 noes.

The contest for Coroner and Public Administrator of Amador county has been decided in favor of Scott, who had been declared elected on the face o the returns.

Ribot, in answering Bourgeois, also said: "Would you destroy the treaty with Mexico at the very moment Blaine is trying to get South America into a Zollverein?"

EMBRYO STATUTES.

The Installment Tax Bill is Constitutional.

It is Declared Not in Conflict With the Political Code.

The Railroad Commission Attacked by Mr. Shannahan.

He Thinks it a Useless and Costly Body—A Bill to Validate Electric Railroad Franchises—Capital Happenings.

By Telegraph to The Times.

SACRAMENTO, Jan. 22.—[By the Associated Press.] In the Senate the Hospital Committee reported favorably on the bills relative to the registry of births, deaths and marriages; appropriating money for the establishment of a State hospital for lepers and providing for a State sanitary inspector.

The Committee on Education reported back without recommending the bill probibiting the sale of tobacco and cigarettes to minors.

The Committee on Military Affairs favorably reported the bill giving preference to ex-soldiers and sailors for work on public buildings.

The special Committee on the Installment Tax Bill reported that the bill did not conflict with the Political Code. The bill was finally ordered reprinted. The Committee on Government reported favorably the bill to increase the police force of cities, amended to provide that there may be one police officer to every 500 inhabitants.

Mr. Maher's resolution appointing Jack Stepacher clerk of the Apportionment Committee with a per diem of $5 was adopted.

The Judiciary Committee reported that the Governor's action in withdrawing Waterman's appointments was legal. Mr. Goucher opposed it, and wanted it referred to the Attorney-General. The report was finally adopted. Recess till 1:30 o'clock.

After reassembling, the reading of bills was taken up and continued till 4 o'clock, when the Senate adjourned till tomorrow morning.

Assembly.

The Assembly met at 11 o'clock. The following were among the bills introduced:

By Mr. Hawley—To provide for damages from the overflow of artesian wells; also for the planting and maintaining of trees in cities.

By Mr Sturtevant;—Relating to county roads.

By Mr. Duvner—Relative to fish and game.

By Mr. Kellogg—To create a board of harbor commissioners for Humboldt Bay; also an appropriation to pay the claim $458, due from the state to Wm. H. Murphy.

By Mr. Cunningham—To increase the number of Superior judges in Tulare county.

The Constitutional amendment relating to the abolishment of the Railroad Commission, came up on the special bill. Mr. Shannahan first spoke. He said that he could see no further use for the commission. It cost the people from $18,000 to $20,000 a year, and since it came into existance, had cost something like $200,000.

Mr. Bruner wanted the discussion made a special order for Tuesday next.

Mr. Brutre wanted it referred to the Special Committee on Commissions. The disposition of it caused considerable discussion; it was finally decided to make it the special order for next Thursday. Recess till 2.

After reassembling, the bill making it a misdemeanor for attorneys to advertise divorce business, was passed.

The bill amending the code so as to permit electricity as a motive power for street railroads was passed. This bill validates all existing electric-light franchises. Shortly after 4 o'clock the Assembly adjourned till tomorrow.

Work in Committee.

SACRAMENTO, Jan. 22.—The Assembly Committee on Elections and Privileges decided tonight to report favorably the bill to ascertain the will of the people upon the method of electing United States senators.

BRITISH POLITICS.

The Election of Furness a Victory for the Gladstonians.

LONDON, Jan. 22.—[By Cable and Associated Press.] Gladstone has telegraphed a reply to a correspondent at Hartlepool, who wired Gladstone his congratulations upon the victory of the Gladstonian candidate as follows:

The election is, from time and circumstances, by far the most important since 1886. The limits of a telegram preclude giving my full meaning, but all must see that the simple figures of the poll reduce to dust and ashes the declarations of Lord Salisbury, Sir Henry James, Goschen and the Duke of Westminster upon what they call "recent events."

During a conversation in the lobby of the Commons today Parnell declared his intention to assert his authority as leader of the National Party and engage actively in work during the present session of Parliament. It is claimed that the motion in regard to the administration of the Crimes Act, made by Parnell at today's session of the House cuts the ground from under McCarthy's feet, as it obtains precedence of McCarthy's motion concerning the trial of William O'Brien.

The Daily News, commenting on the victory of Furness in the Parliamentary election in Hartlepool, says: "It is the most splendid victory since the general election."

The Chronicle claims a victory for the Labor party, the leaders of which had told their members to support Furness because he had taken a pledge to employ only union labor, while Gray, his opponent, had refused to take the pledge.

The Times says that the election at Hartlepool reveals a danger that the Unionists should never lose sight of.

The Standard says that, though no guide as to the result of the general election, the election in Hartlepool serves to give point to Lord Salisbury's warning.

A TEMPORARY AGREEMENT.

DUBLIN, Jan. 22.—The Express today announced that Parnell, O'Brien, Dillon and McCarthy have simply come to an agreement in regard to maintaing the status quo until the next general election.

SLOGGING AT SAN JOSE.

Jack Delancy Finished Off in Twenty Rounds by Mick McCarthy.

SAN JOSE (Cal.,) Jan. 22.—A glove contest between Jack Delancy and Mick McCarthy took place before the San José Athletic Club tonight, and resulted in a victory for McCarthy in the twentieth round. The men were well matched and the contest very scientific.

Delancy did most of the leading up to the seventeenth round, and had worn himself out to a great degree. At this time McCarthy commenced his work and found his opponent comparatively easy prey. With left-handed jabs and right-handed upper cuts McCarthy followed Delancy over the ring. McCarthy showed superior generalship and won by his waiting tactics.

When McCarthy saw that his opponent was growing weak he started in to finish him. In the nineteenth round McCarthy knocked Delancy through the ropes. He was up at the end of eight seconds and was knocked down again, but arose at nine seconds. McCarthy hit him in the jaw, knocking him through the ropes near his corner, and the call of time saved him. In the twentieth round Delancy fought gamely, but was too weak, and was knocked through the ropes at his own corner. He made a struggle to rise but was counted out.

PERMANENT PEACE.

GEN. MILES PREPARES TO SEND HOME HIS TROOPS.

A Grand Military Display Made to Impress the Indians—Col. Forsythe Not Exonerated by the Board of Inquiry.

By Telegraph to The Times.

PINE RIDGE (S. D.,) Jan. 22.—[By the Associated Press.] A review of troops took place this morning about four miles from the agency. It attracted the attention of nearly all the friendly and hostile Indians on the agency. After the review there was a display of the transportation department of the army. There were 3000 men in the review.

Orders for the moving away of the various commands now in the field are being prepared. Forty more guns were turned over to Gen. Miles this evening. Several girl inmates of the Indian boarding-school have run away, having been induced to do so, it is stated, by their parents who told them that the structure was to be burned down by the Brules.

COL. FORSYTHE NOT EXONERATED.

CHICAGO, Jan. 22.—Assistant Adjt-Gen. Corbin of Gen. Miles' staff reached this city this morning from the Pine Ridge Agency. He was not expected until Monday, but owing to the ill-health of his wife he hastened his return. Gen. Corbin was asked if the official report on the investigation of the Wounded Knee battle condemns any one. He replied that it finds that Col. Forsythe was unmindful of the instructions issued by Gen. Miles against the very things that happened that day. The reports that the inquiry freed the responsible persons from blame are erroneous.

The Strike on the Erie.

CHICAGO, Jan. 22.—Business seems to have been practically suspended by the Chicago and Erie road between Huntington, Ind., and this city. No train has arrived or left here since yesterday, and no attempt has been made since Tuesday night to move any freight. Erie officials here refused to give any information as to the condition of affairs.

AT WASHINGTON.

Progress of the Silver Pool Investigation.

The Committee Listens to Much Unimportant Evidence.

Assembling of the Different Alliance Branches at the Capital.

Another Day of Filibustering in the National Legislature—The Senate Will Consider the Cloture Rule.

By Telegraph to The Times.

WASHINGTON, Jan. 22.—[By the Associated Press.] The Special Committee on the Silver Pool this morning examined Senators Stewart, Teller and Wolcott. They denied all knowledge of the pool. E. N. Hill, a lawyer, said that one J. W. Hedenberg, a real-estate man from Chicago, came to him last spring, talked over the silver legislation and showed what he said were certificates for 1000 ounces of silver each, suggesting that the witness could sell some on a margin of $25 per 1000 ounces, and would be paid one certificate for every four shares sold. The witness said that he might sell some to business friends, but Hedenberg interrupted him with the statement that he wanted the certificates sold to members of Congress.

The witness did not want to go into the thing. He had no knowledge of any certificates being offered members of Congress. The witness had written some essays on bi-metalism, which had appeared in the Congressional Record.

Mr. Dingley asked if they were delivered as speeches, but the witness laughingly answered that he did not know what was done with them.

James A. George, who said that he ran a provision store in this city, had heard a conversation between Hill and Hedenberg. Hedenberg had told him he got a pool organized that held 1,000,000 ounces of silver. Hedenberg wanted the witness to see Southern members, and said that he did not want free coinage, but the House bill. The witness told Hedenberg that he was a free coinage man, and if he knew a congressman going the other way he would expose him. Hedenberg, in reply to a suggestion from the witness that he (Hedenberg) coming from Chicago, ought to see the Illinois members, replied that he would look after them and wanted the witness to see the Southern members. After the statement that the witness was a free coinage man, however, Hedenberg dodged him constantly.

THE LABOR CONGRESS.

Representatives of the Knights of Labor, Colored Farmers' Alliance, National Farmers' Alliance, Farmers' Union and Citizens' Alliance began a meeting here today in accordance with the instructions of the Ocala Conference. The representatives of three other organizations are expected tomorrow. A plan of agreement looking to confederation was drawn up. It provides for a joint committee of five from each organization to represent the confederation. The St. Louis platform shall be the basis each shall stand pledged to assist, when possible, in all local efforts to better the condition of the people. The joint committee shall have power to admit other organizations with a similar object. Each organization shall be bound to support the plans agreed upon by the joint committee. Adjourned until tomorrow.

PENSION OFFICE BUSINESS.

The statement of the Pension Office shows that during the first fifteen days of January 10,377 pension certificates were issued, the larger proportion under the dependent act of June 27 last. This was the largest number ever issued by the bureau during a like period. The vast number of inquiries relating to pending claims daily received from members of Congress, all of which have been answered, is seriously interfering with the regular business of the office. One day last week the inquiries of that character received amounted to 2086.

DEPORTING THE CHINESE.

The Secretary of the Treasury has approved the proposition made by G. B. Williams on behalf of the Southern Pacific Company to transport Chinese intended for deportation, from Seattle or Tacoma, Wash., to San Francisco by railroad, thence to Hong Kong by steamer, at $51 each, which sum includes for the entire journey and adequate guard between Seattle an San Francisco. The Secretary, accordingly, has requested the Atttorney-General to instruct United States marshals to turn over to the company designated all Chinamen intended for deportation, and to have deputy marshals accompany them to the steamer.

FIFTY-FIRST CONGRESS.

SECOND SESSION.

WASHINGTON, Jan. 22.—[By the Associated Press.] *Senate.*—A quorum appeared at 10:30 this morning and the question of approval of the Journal came up. Mr. Aldrich took the floor and stated that Democrats had at last thrown off all disguise and disclosed their decided intention to prevent legislation against their wishes in regard to a certain measure referred to. Harris said that if the Senate proceeded to the consideration of the Appropriation Bill his party would consent. Mr. Aldrich, at the conclusion of his remarks, urged the Senate to proceed to the consideration of the resolution to amend the rules by the adoption of the plan of cloture.

A point of order was made by Mr. Harris that the unfinished business was a motion to correct the Journal of Tuesday's proceedings, and that as it involved the status of Mr. Aldrich's resolution, it must be first disposed of. The Vice-President indicated his desire to hear argument on the point and the position of each side was stated by various senators. Mr. Stewart argued strongly on the Democratic side, and Mr. Sherman argued that although the motion to correct the Journal was a privileged question, it did not necessarily follow that it must be first considered. Any other subject might be taken up in preference by a majority vote.

The Vice-President ruled Mr. Aldrich's motion to proceed to the consideration of the cloture rule in order, and overruled Mr. Harris's point of order. Harris appealed, but the chair was sustained. Messrs. Teller, Wolcott and Stewart voted with the Democrats.

Mr. Aldrich moved to proceed to the consideration of his resolution (cloture) and Mr. Gorman moved to table it. The Vice-President submitted the question and a vote was taken. It resulted: Yeas 30, nays 35. The motion to table was lost and a vote was taken on the motion to consider the cloture rule. It prevailed by a vote of 36 to 32.

Immediately, however, Mr. Harris called up his point of order against the cloture resolution on Tuesday (that it was not explicit enough to meet the rule.) The Vice-President ruled against him, but Mr. Harris took an appeal and was permitted to debate it. Finally, on motion of Mr. Aldrich, Mr. Harris's appeal was laid on the table—33 to 28. After further debates and notices of amendments by Messrs. Stewart and Gibson, Mr. Cockrell, who had the floor, yielded, and the Senate took a recess till tomorrow.

The object of taking a recess instead of adjourning is supposed to be to avoid the questions being raised as to the correction of the journal. There will be no journal until the legislative day of the 22d is finished.

House.—In the House this morning Mr. Rogers of Arkansas raised the point of no quorum, but the Speaker counted 168 members, and directed the reading of the Journal.

Mr. McMillin of Tennessee impeached the Speaker yesterday declaring dilatory Mr. McMillin's motion that the resolution reported by the Rules Committee be recommitted, etc. Messrs. Springer, Bland and others supported him.

Speaker Reed said that the debate, while nominally upon the approval of the Journal, had really been upon the propriety of certain rulings. He did not think that the bickerings of the past few days added to the dignity of the House. The business of a legislative body was to legislate, and not to permit its legislation to be wantonly interrupted.

After further debate the Journal was approved by a rising vote. The District of Columbia Appropriation Bill was passed, and the House went into Committee of the Whole on the Naval Appriation Bill. Mr. Boutelle explained it, the committee rose and the House adjourned.

GOV. BOYD'S VICTORY.

HE REFUSES TO AUTHORIZE EX-GOV. THAYER'S CONTEST,

And Is Upheld by the Supreme Court—A Compromise Probable in Montana—Other Deadlocked Legislature.

By Telegraph to The Times.

LINCOLN, (Neb.,) Jan. 22.—[By the Associated Press.] The joint convention of the Legislature to hear the election contest met this morning, but at once took a recess until 2 p. m., when the decision of the Supreme Court on the legality of the proceedings was formally delivered. The court holds that the signatures of the Governor and Lieutenant-Governorto concurrent resolutions are necessary to make the acts of the joint convention valid.

This leaves the Independents in somewhat of a dilemma. They must proceed to pass another concurrent resolution, and this will take about six days. If Gov. Boyd refuses to sign it under today's decision, no contest can be held. They assert that a resolution calling a joint session to contest the right of a governor to his seat should be legal without his signature, but the State Constitution is mandatory on that point. There is some talk of their dropping the contest. If they do the only obstacle in Boyd's way will be the proceedings to test his citizenship instituted by ex-Gov. Thayer.

THE MONTANA CONTEST.

HELENA (Mont.,) Jan. 22.—Both parties to the legislative deadlock have been caucusing all day. The Democrats today made a proposition that the houses come together with 28 Republicans and 27 Democrats, the latter to have the organization of the House. The Republicans, in accepting, asked for a division of the other offices, and that the proceedings of the rival houses be expunged from the journals. This the Democrats refused. It is probable, however, that some agreement will be reached by Monday, as the Republicans have adjourned until Saturday.

ABOLISHING THE SALOON.

CARSON (Nev.,) Jan. 22.—Speaker of the Assembly Bicknall has instructed the sergeant-at-arms to refrain from selling spirituous and malt liquors in the Capitol building during the session.

The Republican members of the Lesislature voted unanimously for J. P. Jones for United States Senator.

DEADLOCKED LEGISLATURES.

SPRINGFIELD (Ill.,) Jan. 22.—One ballot was taken in the joint session of the Legislature today for United States Senator. It was without change from yesterday. An adjournment was then taken till tomorrow.

PIERRE (S. D.,) Jan. 22.—The third and fourth ballots for Senator were taken today without material change.

BISMARCK (N. D.,) Jan. 22.—The Legislature took nine ballots for Senator today without result, and with few changes.

NOMINATED WILLIAM F. VILAS.

MADISON (Wis.,) Jan 22.—The Democrats of the Legislature in joint caucus today nominated for United States Senator William F. Vilas.

By Telegraph to The Times.

KEELER (Cal.,) Jan. 22.—[By the Associated Press.] Communications just received from the Death Valley Expedition, dated Lone Willow Springs, January 18, give the personnel of the party as it enters the valley, as follows: Profs. Palmer, Fisher, Coville, Funston, Bailey, Nelson and Dikeman, and four assistants, eleven in all, with seventeen animals, Prof. Stevens of San Bernardino being unable to join the expedition until later in the season. The entire party left Lone Willow Springs on the 15th, and will separate after entering the valley into parties, and camp as follows: Profs. Palmer Coville, Fisher and Funston, at Furnace Creek, near the north end and on the east side of the valley, and Profs. Bailey, Nelson and Dikeman at Bennett's Wells, situated about the center of the valley and very close to the line of greatest depression from the sea level.

After remaining at Bennett's Wells long enough to investigate that locality, Prof. Bailey and party will start south, skirting the southern end of the valley; thence up the east side of the Armagosa desert. About the same time Prof. Palmer and party will push on northward, both parties eventually meeting at the Oasis. Each party will be met at intervals by a supply wagon, which will secure the necessary provisions at Daggett, each party only carrying enough to last until the wagon can get around again, to avoid overloading the field transportation.

The party will travel sixty miles from Lone Willow Springs before reaching water again. Facilities are at hand for carrying 200 gallons, enough for three days, which will enable them to reach water in the valley. The naturalists expect to accomplish their inspection of the valley in about six weeks, after which they will declare war on the mammals in Funeral and Panamint Mountains. Great success is reported in their undertaking, many rare specimens having been secured in Panamint Valley.

THE SWEET WINE MEN.

A Complaint Against a Recent Rule of the Revenue Department.

SAN FRANCISCO, Jan. 22.—[By the Associated Press.] At a meeting of the sweet-wine producers at the Viticultural Commission rooms today, F. A. West and George West of Stockton were present, also Julius P. Smith and C. A. Wetmore of Livermore, C. H. Kirby of Fowler, Herman C. Eggers of Fresno, E. L. Watkins of the San Gabriel Wine Company, Juan Gallegos of San José and others. The main question discussed was the action of the internal revenue collectors in requiring additional revenue on sweet wines that contain more than 10 per cent. of alcohol before fortification. A telegram was sent to the internal revenue department requesting the suspension of the order until a more thorough investigation is held in relation to the matter.

AN ANTI-CHINESE WAR.

A Mob at Milton, Or., Banishes the Celestials.

PENDLETON (Or.,) Jan. 22.—[By the Associated Press.] A report comes from Milton, a few miles from here, that the Chinese were driven out of town last night by a mob of 100 men. They went to the Chinese quarter and led the Celestials out with ropes around their necks. It is thought that the mob consisted of discharged railroad section hands and their sympathizers in Milton. The Chinese were pretty roughly handled, and it is said that two of them were badly hurt.

The Coldest Day.

LOS ANGELES, Jan. 20, 1891.—[To the Editor of THE TIMES.] The lowest temperature indicated by a self-registering thermometer in this city during the recent cold snap was 24° Fahrenheit. This was on the 13th inst., and at my residence, near the corner of Grand avenue and Jefferson street. Tomato plants, lilies, geraniums and other greenhouse plants were frozen to the ground, and they are never injured by a temperature of 34°.

The United States Signal Service office is located in the fourth story of the Wilson Block, and its record of minimum temperature is misleading, in this: that its elevation above the sea-level (some three hundred feet) corresponds somewhat to the thermal belt along the foothills, where the winter temperature is always higher than upon the plains, 100 or 150 feet below.

It is a gratifying fact, however, that, notwithstanding this recent low temperature, neither the orange nor the lemon was injured in the least. R.

One of Waterman's Pets.

[Examiner.]

George Rodgers, alias Chauncey Packer, one of the pardoned innocents of ex-Gov. Waterman, who was arrested a few mornings ago on Sutter street for lugging around a slungshot made of a rock tied in a silk handkerchief, had his trial on a charge of carrying a concealed weapon postponed in Judge Joachimsen's court yesterday until Tuesday. The police held him without bail, hoping to connect him with a recent attempt at robbery, but the court ordered yesterday that he be released on $500 bonds or $250 cash. The cash was forthcoming one hour later, much to the disgust of the police.

As Rodgers was leaving the prison he was met by Chief Crowley, who advised him to behave himself in future. "You will be kept under surveillance," said the chief, "and unless you mend your ways you will surely end your days in the penitentiary if not on the scaffold."

A Pretty Steep Tax.

[San Francisco Call.]

A correspondent of the Brooklyn (N. Y.) Eagle has entered into a close calculation of the rate of taxation on land that would become necessary if all other taxes should be abolished. That rate he estimates at about 7 per cent. on the full present value of land. The uncertain factor in his calculations is the estimated amount of revenue that would be necessary. The present value of land he finds to be $10,863,972,847. The amount of revenue needed he estimates at $800,000,000 annually. To raise this amount of revenue from land a tax of a little more than 7 per cent. of its present value would be necessary. The $800,000,000, it should be borne in mind, is in lieu of national, State, county and municipal taxes. Possibly the estimate of $800,000,000 is too large. The State, county and municipal tax of the city of San Francisco is less than 2 per cent. on a full valuation of real and personal property. If we take personal property and improvements from the aggregate of assessable property we would have a tax rate of between 3 and 4 per cent. This would leave about the same amount to be raised for national purposes. What would a laboring man gain by substituting a tax of 7 per cent. in place of the ordinary rental of land?

THE CHAPLAIN HAD TO WAIT

Senator Stanford Couldn't Be Interrupted During a Horse Trade.

[San Francisco Call.]

Next to a horse, Senator Stanford loves a horse trade. The other day he was in his committee room, and his private secretary, John B. McCarthy, was guarding the exterior of the door with characteristic vigilance, when a clerical-looking and venerable gentleman ascended the stairway and inquired of the secretary as to the whereabouts of the Senator.

"He is inside," was Mr. McCarthy's reply.

"I would like to see him for a few moments," suggested the visitor.

"Nothing would please me more than to oblige you, sir," said he, "but it is really impossible. He is extremely busy."

The stranger hesitated for a moment and then said. "But I really ought to see him. My business is of importance, and the Senator is much interested in it. I am Chaplain —— of the United States Army."

This last revelation the visitor evidently believed would secure the longed for admittance, but it had no apparent effect, according to the Washington Star, than that of adding to McCarthy's distress. "I assure you, sir," said he, "that if it were possible I would take your card to the Senator. It cannot, however, be done. Gov. Stanford is in that room with Representative Dorsey of Nebraska, and the tables and chairs and floor are all littered up with pedigrees. If it was anything else but a horse trade I'd let you in, but it's more than my situation is worth for me to rattle the door-knob just now."

A Chance for the Ladies.

Mrs. J. Davidson, 121 W. Third st., being about to remove from the city, will close out her entire stock of fashionable Millinery regardless of cost. Everything must be sold by February 1. Fixtures for sale.

To make an intelligent test of this, try the following method: Hang a strip of leather in a bottle of Acme Blacking, and leave it there for a day or a month. Take it out and hang it up to dry and examine its condition carefully. We recommend ladies to make a similar test with French Dressing and gentlemen with any liquid solution of Paste Blacking, or with liquid blacking that comes in stone jugs.

FIVE PER CENT. INTEREST PAID ON DEPOSITS.

The notice of the public is called to the fact that this bank has the largest paid-up capital of any Savings bank in Southern California, and only loans money on approved real-estate security; that among its stockholders are some of the oldest and most responsible citizens of the community; that, under the State law, the private estates of its stockholders are pro rata liable for the total indebtedness of the bank. These facts, with care exercised in making loans, insure a safe depository for saving accounts. School teachers, clerks, mechanics, employés in factories and shops, laborers, etc., will find it convenient to make deposits in small amounts. CHILDREN'S SAVINGS DEPOSITS received in sums of 25 cents and upward. Remittances may be sent by draft or Wells, Fargo & Co's. Express.

THE PASADENA WATER COMPANY

Votes to Create a Bonded Indebtedness of $50,000—At the Raymond—Personal Jottings and Brevities.

A meeting of the stockholders of the Pasadena Land and Water Company was held yesterday afternoon for the purpose of determining whether the corporation should create a bonded indebtedness in the sum of $50,000 in accordance with the provisions of law. By a unanimous vote it was decided to create such indebtedness.

It is stated that the needs of the company are urgent for a sum of from $25,000 to $30,000 within the next year for the following purposes:

To pay the present debt of $4,500; to replace the old cement pipe along the Arroyo Seco leading to South Pasadena with an iron pipe, the old one having given out, and unless it be replaced with iron the consumers now drawing water from that line will have to be supplied by pumping to the upper system, at great expense; to renew old pipes in many of the streets; to cement the east side of the Orange Grove Reservoir and repair the west side of the same; to develop water at the Devil's Gate in connection with the Lake Vineyard Company, and if deemed expedient, to also develop further supplies at the Sheep Corral Springs.

The voting of bonds was decided upon as the best method of raising the money, inasmuch as the stringency of the times would make the plan of direct assessment upon the stockholders very oppressive. It is proposed to run the bonds a long time at a low rate of interest, so that both principal and interest can be met from the present income of the company. The stated reason for asking authority to issue bonds to the amount of $50,000 is that if more than $30,000 is needed for the objects already mentioned, bonds for the additional amount can be sold without further expense or delay.

THE RAYMOND.

Current Amusements at the Popular Hotel.

Mrs. Harding and Mrs. Howard gave a delightful progressive hearts party Tuesday evening. Twenty tables were occupied by eighty guests. The following persons won prizes: Miss Wright, Mrs. Kinsley, Miss Hickman, Mrs. Wilde, Miss Wilde, Mrs. Emery, Mrs. Ayer, Miss Culbreth, Mrs. Cody, and Messrs. Sergent, Wilde, Lincoln, Stone, Bain, Savidge and Frost.

Wednesday night a shooting match was the attraction. Out of a possible 100 the following scores were made: Mrs. Harding, 32; Mrs. Chaffee, 0; Mrs. Kinsley, 12; Miss Merrill, 20; Mrs. Sargent, 9; Mrs. Hatch, 38; Mrs. Emery, 30; Miss Wright, 22; Miss Emery, 9; Mrs. Skeels, 24; E. Howard, 31; George Howard, 24; Mr. Day, 64; Mr. Osborn, 20; Mr. Sargent, 38; Charles Merrill, 44; Mr. Hatch, 34; Mr. Skeels, 24; Mr. Harding, 60; Mr. Cam bell, 46; Henry Merrill, 60; Mr. Day won first prize. For second place Mr. Merrill and Mr. Harding shot off a tie, and the latter one making 17 points to his opponent's 15.

Among the recent arrivals are: Mortion D. Andrews and wife, Boston; Henry R. Towne and wife, Stamford, Ct.; J. L. Keck and wife, Kearney, Neb.; H. E. Hooper, New York; W. F. White, H. F. Grierson, Chicago.

Wednesday a number of guests spent picknicking in Willard's Cañon. Some went on horseback, others rode and the caterer went along to see to it that all were well fed.

THE DEFENDANT WINS.

A Thrilling Case Before Justice Rose.

A jury of six good men and true sat in Justice Rose's courtroom yesterday morning and heard testimony in the case of The People vs. Marie Pollorina, charged with embezzlement.

The plaintiff was Angelita Paredos,, a resident of North Pasadena. It seems that she has been living for some time past with a man who in a legal sense is not her husband. Her mother lived at Bakersfield, and Angelita wishing to visit her, the old lady forwarded $5 to Marie to give to Angelita in case the latter would go to Bakersfield unattended by her man. Angelita (the "little angel") wouldn't hear to such a proposal, so Marie kept the money in accordance with instructions. And this was what the row was about. The letter from Angelita's mother, who has died since it was written, was produced and made a clear case for the defendant, proving as it did that she was simply acting under instructions. On motion of Deputy District Attorney Blades the case was dismissed. Mr. Blades was assisted by John G. Rossiter; Ben Hahn conducted the defense.

Athletic Club Matters.

A meeting of the Athletic Club was held last night at the rooms on South Raymond Avenue. The next regular meeting will be held in the large room upstairs, which by that time will likely be well equipped as a gymnasium. Yesterday six electric lights were placed in the room; they hang from the ceiling and will well light the apartment. The club now numbers nearly one hundred members and new applications are constantly coming in. New apparatus is on the way from the manufactures.

The Chestnut Concert.

The musical event of the week will be the chestnut concert in the Universalist Church tonight. The best musical talent of the town will be represented among the performers, and the songs sung will all be old favorites rendered in the best manner possible. The local talent will be reinforced by the Baldwin children from Los Angeles, who gain favor wherever they appear. The soloists will be appropriately costumed. The performance is given for a worthy cause. No one can afford to stay away.

BREVITIES.

Revival services continue in many of the churches.

The driving public will find an improvement in our streets, owing to the additional service of two sprinkling carts.

Yesterday's overland was bulletined to arrive at 5 p. m.

The usual hop will be given at the Raymond tomorrow night.

Much of the eastern mail reaches here by way of San Francisco.

Local weather prophets predict rain with the next change of the moon.

New stone gutters are being laid on portions of South Marengo and Euclid avenues.

A meeting of John F. Godfrey Post, G. A. R., was held last night in Strong's Hall.

Selden S. Walkley, father of Selden L. Walkley of this city, died at Philadelphia yesterday morning.

City Council meets in regular session tomorrow. Several important ordinances will likely be passed.

The shipment of oranges East is progressing as the season advances, 1800 boxes being already on the way.

The mandolin and banjo playing at the Opera House Wednesday night was the best heard here for some time.

The progressive cotillon at the Raymond last night was largely attended and proved one of the most delighful social events of the season.

Secretary Manahan, with the directors and stockholders of the Pasadena Improvement Company, spent yesterday viewing their possessions at Altadena.

An open meeting of the Shakespeare Club was held yesterday evening at the residence of H. G. Bennett. A number of invited guests were entertained.

E. M. Farris reports the sale of a house and lot on North Wilson avenue to Mrs. Veach, who will occupy the place. Also ten acres on Lake avenue to eastern parties.

The annual election of a board of directors of the Pasadena Lake Vineyard Land and Water Company will be held on Monday. The polls will be open during the day for stockholders to vote.

The Chapman ranch of North Lamanda Park, comprising forty acres of improved land and special water rights, has been purchased by Mrs. E. Judah and son, E. J. Judah, of this city, for $15,000.

The Royce-Lansing Company gave the best performance seen here in a long time. It is a pity they were greeted by such a poor house. Hearty support will be given them in case they ever return.

The following are the arrivals at the Painter: A. M. Smith and family, Portland, Or.; Mrs. John McKinlock, Mrs. Wm. H. McKinlock and daughter, Mrs. Sharp, Chicago; Mrs. James Moore and Miss Cooper, New York.

The boys who broke into Chappel's fruit stand a few nights ago have been captured by Marshal McLean. The smallest thief of the lot gave the thing away because the booty was not fairly divided. The matter will receive due attention at the hands of the authorities.

SANTA MONICA.

Real-estate Transfers—The Board of Trustees.

SANTA MONICA, Jan. 20.—[Correspondence of THE TIMES.] Lewis and Chamberlain have made two real-estate sales this week, each for $1000.

At the meeting of the Board of Trustees Monday evening, the contract for the laying of a cement walk on Nevada avenue between Third and Fourth streets was reconsidered, and the contractor relieved of all bonds.

The board also passed a resolution instructing the City Attorney to commence suit immediately to settle the question of the title of all the streets and alleys in the town, and to employ additional council, but more on this further on.

A petition was presented requesting that the license on both houses be remitted during the winter months.

A most enjoyable hop was given at the Arcadia Saturday evening.

Charlie Fleschert is one of the most delighted men in town. Cause: A little daughter in the home.

The article in yesterday's TIMES on the Home is greatly appreciated here. It states the absolute truth and those in a position to know realize that such is the case.

Mr. and Mrs. James D. Shaw of Toronto, Canada, are spending a few days here.

Henry & Parker made a good haul yesterday and are doing splendidly with their seine.

The home of J. F. Hogan, on the corner of Nevada avenue and Second street, is one of the most attractive in town to visitors, and proves conclusively what can be done here in a short space of time by well-directed efforts.

The Testimony of a Veteran.

SOLDIERS' HOME (Santa Monica,) Jan. 21, 1891.—[Correspondence of THE TIMES.] The exposure in yesterday's TIMES of the real animus and the true inwardness of the latest attack on the management of this Home has caused comment among the veterans domiciled here, and the general verdict is favorable to THE TIMES'S indictment. The old soldier has a faculty of expressing his opinions with a freedom and positiveness positively refreshing, if he does not always employ the choicest English in doing so. That men die here as well as elsewhere is not strange or to be wondered at. They have been dying all over the world as far back as the memory of man runneth, but, not to go beyond the borders of our own hemisphere, I would say that in a residence of six months here, I have not heard of a man's death being caused by the water provided for the use of the Home. In a large number of cases death was the result of old age, infirmities, and disease contracted years before. My own experience and observation is that men who come to the Home before they are too far gone in the stages of disease invariably improve under the medical treatment of the Home. Men of robust health, with an unlimited lease on life, are not admitted. The place was intended for those unfortunates who, from one cause or another, have been incapacitated for earning a living by manual labor and who are glad to find its hospitable shelter.

Yours truly
J. T. M.

Redondo.

REDONDO, Jan. 21.—[Correspondence of THE TIMES.] The hop given in the dancing hall of the Redondo Hotel last night was voted a delightful occasion by all in attendance. The following from San Francisco were among the dancers; Misses Marguerite Janson, Essie Patterson, Mrs. S. J. Davis and daughter, Mr. E. Marshal Hawley.

Miss Mellie Brazee of Portland, Or., will spend the winter at Redondo Hotel.

A party from the Raymond visited the Redondo today and remarked that it was the pleasantest day they had spent in California.

Among the last arrivals are, O. G. Fox and wife, Chicago; A. L. Sheels and wife, Madison, Wis.; Alex Stewart and wife, Misses Mary and Margaret Stewart, Wausau, Wis.; R. Weeks and wife, Portland, Or.; S. J. Norman, L. Montgomery, Mathus, Los Angeles, William O. Morgan, San Francisco.

Few visitors come to Redondo Hotel without visiting its nursery, and certainly no more beautiful collection of flowers can be found in Southern California than this nursery affords; the quantity and variety of carnations is not equaled. There is a display of cut flowers from these nurseries at the Los Angeles Chamber of Commerce. They will be sent in fresh every day.

A number of lumber schooners are expected to arrive with lumber for the Willamette Lumber Company in a few days.

Valle del Roca de la Aguila.

EAGLE ROCK VALLEY, Jan. 19.—[Correspondence of THE TIMES.] Our citizens are putting on great airs since the DAILY TIMES is being delivered here. It seems to bring us nearer the city.

The O'Neal ranch was sold last Thursday for the sum of $3700. Messrs. Biddle and Reader of your city are the fortunate buyers. They will occupy it with their families in a few weeks.

Mr. Berry, who has purchased a part of the Rockdale tract commenced hauling lumber today for his new house.

The report in Saturday's TIMES, stating that Mrs. Martin's barn was probably burned by an enemy is without foundation, as she is a widow lady and has no enemies in Eagle Rock. It was an accident.

Mr. Peter Backman has several men employed in setting out 1500 Kelsey plum trees, a number of walnut trees and some oranges.

The barley is needing rain and little more plowing can be done till it comes.

The Farmers' Alliance of this place now has a membership of sixty-seven, and we mean business.

Mrs. Stevens, better known as "Grandma" Stevens, died on Saturday, January 10, at the advanced age of 87 years.

Steps will be taken in the near future to establish a postoffice in our valley.

DR. WOH
The Celebrated Chinese Physician.
A Regular Practicioner of Chinese Doctoring.

Having practiced medicine in China ten years and in the United States fourteen years.

His testimonials of positive cures are on exhibition, and speak for themselves. He knows diseases from the heart pulses, and can cure and diagnose the same without questioning his patients.

A trial will convince the most sceptical. Consultation is free.

All who are sick, and those who think they cannot be healed, call upon the doctor, and they will be grateful beyond anything before tried. If friends are sick, no matter what the disease may be, send them to the doctor, and he will surely heal them.

Dr. Woh asks nothing and claims nothing but a fair trial and if given that he knows he can overcome sickness and disease of both men and women.

No person will be treated by Dr. Woh who will not abstain from alcoholic liquors or opiates during his charge and no medicine will be used but PURE HERBS and their best extracts.

Dr. Woh is the oldest and best-known Chinese doctor in Southern California and his cures have been remarkable, especially female troubles, tumors, etc.

Call upon Dr. Woh and let him examine you.

It is believed by Detective Will Smith, of the Southern Pacific Company, that there are quite a number of counterfeiters in the city at the present time. They have succeeded in passing $1 pieces of 1889 at various places, and the ticket sellers of the Southern Pacific have come in for their share. The coin is almost perfect and it takes an expert to detect the fraud. The coin is brand new and is evidently being worked off by quite a number of persons.

THE ORANGE OUTLOOK.

Views of a Well-known Philadelphia Broker.

THE SITUATION IN THE EAST

Status of California Fruits in Leading Markets—Facts for the Consideration of Local Growers.

Last summer M. V. Hartranft, a well-known Philadelphia fruit broker, visited California on a business trip, and was greatly impressed with the prospects of this section, especially the orange outlook, and has since his return East paid special attention to products from this State. The following letter from Mr. Hartranft will be found of interest to the orange-growers of Southern California:

PHILADELPHIA, Jan. 14.—[To the Editor of THE TIMES.] I was the first one to ever handle a carload of Navel oranges from California, east of the city of Chicago, and for years past have been pegging away to make this city a center for them. Said first car was from D. W. McLeod of Riverside, who is a well-known packer, and verification of the above fact can be made through him.

In all I handled six carloads last season, and showed very encouraging results to the shippers. Soon after their unprecedented success here all the other eastern markets received them and sold them with some success. As regards the situation in Southern California we eastern receivers find it exceedingly hard to get in, to secure supplies, the prevailing feeling throughout your section and consequent high prices being held for, certainly gives us no encouragement to place our orders with the packers.

It appears from what I can glean from the newspapers of your section that the high prices heretofore being realized for Florida stock is giving the growers these outlandish ideas, and as a large receiver and handler on this market let me give the situation as I know it to be.

The Florida shippers have been holding off during the past few months of this season as compared with last year. And also the fruit has really not matured as rapidly as at corresponding dates of last season, and we find it generally understood that they are about forty days later than usual. Now at present date they have large quantities to come forward, and buyers are not taking in any more than for immediate wants; numerous wires are received daily offering bargains from Florida which the unwary is apt to take hold of, to his sorrow, finding that the "bargains" are of the wrong direction.

The most important fact that stares us in the face is that the foreign shippers are starting in on us full force, shipping to the utmost capacity of their establishments. On January 11 a cargo extra S. S. Picqua was sold here; containing 24,000 packages Messina and Palermo fruit; this is the largest cargo sold here in a number of years and the market feels its effects badly. The amount of fruit now afloat from foreign ports is tremendous and buyers will not take hold of them at all. There are four cargoes now in New York being sold this week and fourteen cargoes afloat. With such information and the general feeling of the markets and their future, and other points I will dwell on later, it is discouraging to handlers here to place any orders for California oranges.

There is an advance in the rates to the Missouri river and other western points to 10 per cent., which amounts to nearly 10 cents per box, which is a very handsome profit in itself.

From authentic advices I learn that the seedling crop especially will be a very heavy one, and the trees being overloaded will in consequence make only small-sized fruit.

Now, when oranges are plentiful and cheap, small-sized fruit is almost unsalable; but when oranges are scarce and high small-sized fruit is of course in better demand than large sizes.

As oranges are plentiful and cheap now, with every assurance of continuance of same situation, therefore we anticipate a great deal of trouble with small-sized seedlings.

I also find the Navel crop is as correspondingly large as are the seedlings small, and where the trees are lightly loaded, the fruit is usually large, which will hinder the sale of them, as Navels of such sizes of 64's to 112's sell very slow.

It was only through costly newspaper advertising here last year that we were enabled to induce the trade to take hold of them, as the flavor is not known well enough yet to be really appreciated; it being one of the best sweetest and most delicate flavors I ever knew in any orange from any section (speaking of Navel.) This market is the best of any market on the Atlantic Coast; all the leading dailies have come to the front and heralded their fine qualities, etc., and created a tremendous consuming demand for them in this market; while in other markets on this coast, where they were thrust upon the trade, and sacrificed, the consumer not taking them, for they were not aware of their fine qualities. I have been making preparations to handle a large quantity of California oranges this year, and hope that we would be able to get in, through the packers, at prices which we could see our way clear on, and if they exclude the speculator packer, by holding at unreasonable figures and shipping themselves, it will be a very costly experiment, as the whole history of the State of Florida will prove. And it will compel us to give up the idea of making them a market here.

The growers of Florida last year held out in just the spirit and style now paraded in Southern California; and their loss last season was (referring to the Florida orange-growers) over one and a half million dollars. This was actual and is the estimate of Senator A. S. Mann of the Farmers Alliance of that State; and I was well on the inside track to know the figures, etc., being secretary of the Traveling Fruit-men's Association of the United States, with headquarters in that State.

California oranges are the best oranges grown and have always sold well, yet with improper management there will be an awful slaughter this season. There are twice as many oranges as there ever were before in California, and the speculator packers are the ones who know the markets and how to handle the crops; it is therefore best to let the "wise-acres," have the helm, and when you have to beg for a consumer, and give the fruit away, it places a blemish on the name. Florida if suffering from this today. California has a reputation unexcelled, in fact, glorious. Take good care of it. Now, in conclusion, let me state I have been going on like an old croker, complaining; let me say in my own behalf that, at this end, there is no firm or party that is working harder for the best interests of California, on this coast, than myself. I do not mean by this letter to discourage any grower who has a crop of oranges, but simply suggest if he does as well as he did last season for his crop, per box, let him be happy because to the dealers of this and other markets the outlook is indeed discouraging.

We sell all the oranges in this city by auction mostly, and find that to be the best plan.

Cannot the papers of Southern California help secure the original rate, as in force last year; 10 per cent. advance means an item, and every time of course it comes from the producers.

California dried fruits have made rapid strides in public favor this season, with the exception of raisins, there being a great deal of stock on the market, damaged by the early rains.

Yours very truly,

M. V. HARTRANFT.

THE RAILROADS.

President Manvel on His Way to the Coast—General Notes.

News was rather scarce around the depots and down-town railroad offices yesterday. President Manvel of the Santa Fé is expected to arrive before the first of the month, as he is now on the road making his way out. It is believed that several changes will take place in the management of the road soon. It is generally believed that Jay Gould has gathered in a controlling interest in the company, and if this be true, it will not be a surprise to see W. B. Strong president of the company at no distant day. Strong is a Gould man and is now in New York in consultation with Mr. Gould.

NOTES.

General Freight Agent F. H. McCormick of the Rock Island is in the city on a flying visit. He will probably go north today.

The Southern Pacific started four sunset specials East yesterday afternoon.

James Patterson, traveling freight and passenger agent for the Chicago and Northwestern, has been transferred to this city to assist F. H. Melendy, who has been sick at his residence in Pasadena several months.

L. M. Cheshire, traveling freight agent for the Union Pacific at Sacramento, has been transferred to this city to fill the vacancy caused by the resignation of W. H. Davenport. Mr. Cheshire is an old Union Pacific man, and will be of great assistance to Agent Hechtman.

F. H. Gilbert, who for the last two years has acted as Division Superintendent Muir's private secretary, has been promoted. He will go to San Francisco as private secretary for R. H. Pratt of the Southern Pacific. Mr. Gilbert is a faithful, hard-working young man, and will probably be heard from in railroad circles.

BOARD OF HEALTH.

DR. MACGOWAN RE-ELECTED HEALTH OFFICER.

The Sewer-gas Nuisance—Remedies Proposed—Election of Sanitary Inspectors and Police Surgeon.

The Board of Health met in regular session last night at 8 o'clock, Mayor Hazard presiding.

A petition to the Council from Dr. J. H. Lillie, asking that an ordinance be adopted compelling property-owners to build cesspools and water closets not closer than ten feet from the dividing line, was referred to the board. The matter was referred to the health officer with instructions to draw up an ordinance to be submitted to the City Attorney.

An application from G. Perkins for appointment as Sanitary Inspector was read and filed.

Health Officer MacGowan made a statement to the effect that he has examined and tested the Miller flush tanks for flushing sewers, and stated that the system is a good one.

Engineer August Myer gave his reasons for the escape of sewer gas from the Seventh street sewer. He thinks a trap and a flush tank should be put in to relieve the sewer. The sewers of this city are not properly flushed and that is the reason there is so much trouble from sewer gas.

On motion of Dr. Kurtz, it was decided to reconsider the matter of ventilating the sewers. A committee consisting of Dr. Kuhrtz and Mr. Wright was appointed to investigate the various systems and report at the next meeting.

The next business before the board was the election of a Health Officer. Dr. MacGowan was unanimously reëlected.

Dr. MacGowan thanked the board for the confidence shown in him. He has worked for the best interest of the city, and he proposes to continue the same course.

Dr. MacGowan read a letter from the Health Officer of San Francisco, in which it is stated that smallpox has made its appearance in that city. The disease came from Mexico, and as Los Angeles is nearer Mexico than is San Francisco, he advises the doctor to take necessary steps to keep the epidemic out of this city. It has not made its appearance here, and probably will not.

On the recommendation of Dr. MacGowan, Messrs. McAvoy and Carter were reëlected inspectors.

Dr. N. H. Morrison was unanimously elected police surgeon.

John Keyes was unanimously elected keeper of the pest-house, and also to act as sanitary inspector.

After some further discussion on general subjects the board adjourned.

District Attorney's Detective.

Sheriff Gibson has not sworn in B. C. Weir as the Deputy Sheriff for the District Attorney's office, as has been announced to a TIMES representative. Mr. Gibson yesterday stated that he had not as yet sworn in anybody, and said that for several days yet he would not.

The District Attorney has recommended the appointment of J. C. Cline. The Sheriff has not appointed Cline, and there is a possibility of a deadlock, as Mr. Gibson has a man in view for the place who is in every way qualified, and it is believed that the District Attorney will finally agree to his appointment.

Orange Land and Orange Trees

—ON FIVE YEARS' TIME.—

The very best Orange Land in the market, with pure Mountain Water piped to each subdivision, together with first-class orange trees, budded to Washington Navel, Malta Blood and Mediterranean Sweets are now offered on 5 or 6 years' time. The land is rated from $200 to $500 per acre; trees, $1 each, native stock. Only 20 per cent cash down required. NO FURTHER PAYMENT FOR 5 YEARS; interest only 7 per cent. What could show more confidence in the land, trees, water and climate than this?

The land is at MENTONE, adjoining REDLANDS and CRAFTON. The oldest orange groves in the country adjoin it. The olives, strawberry guavas, prunes, peaches and apricots grown at MENTONE, have the same superior flavor that the orange has at that altitude, and the trees produce the largest crops of any on account of being away from the course of the north winds.

FIVE-CENT DEPOSIT STAMPS.

We have adopted the system of 5-CENT DEPOSIT STAMPS, which has been successfully carried on in many of the cities of Europe for over 50 years and lately adopted by many of the Savings Banks of the United States.

This bank has distributed to its agents a sufficient quantity of red 5-CENT DEPOSIT STAMPS, a little larger than the ordinary 2-cent postage stamp, and each purchaser of one 5-cent deposit stamp is furnished with a stamp deposit book free, beautifully colored, with ten pages, each page ruled for twenty stamps, and when filled represents $1, which is torn out by the depositor and sent to the bank, either directly or through one of the agents whose name and address appears below; the bank then issues to them a regular ordinary Pass Book with the credit of a dollar, which will be sent to the depositor or agent; the depositor then begins to fill another leaf with stamps, which is sent or brought to the bank when full, and so on. Any number of leaves can be depos ted at the same time, or the depositor can wait until he or she has filled the book and bring or send it to the bank and receive an ordinary Deposit Book with the credit of $10.

If you do not understand the system, call at the bank or on one of the bank's authorized agents and have it more fully explained.

Specially treated by

M. HILTON WILLIAMS, M. D.,

M. C. P. S. O.,

137 S. Broadway, Los Angeles, Cal.,

By his Aerean system of practice, which consists of Medicated Inhalations and Compound Oxygen, being administered to the patient instead of filling the system with poisonous drugs administered by the stomach.

This is the system of practice which is now attracting the attention of the best physicians throughout every country in the civilized world, and truly wonderful are the results obtained after all other means have failed in accomplishing any good whatever.

CATARRH.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable tendency to contract a fresh cold. Indeed, he declares he is scarcely free from one cold before he takes another; and he is always exceedingly careful. It is also a matter of surprise to him that the cold always seems to settle in the head or throat.

The Aerean system of practice is applicable in all diseases of the respiratory organs, but the remedies must be prepared for each individual case as they severally require.

By the employment of proper inhalations in the form of medicated vapor (not steam or spray) we are able to produce immediate and direct action upon the diseased surface in the pharynx and nasal passages, for air will find its way into the most remote and intricate cavities, where it is impossible to make fluid application. By these means every case of catarrh can be cured.

Those who desire to consult with me in regard to their cases had better call at the office for an examination, but if impossible to visit the office personally can write for a list of questions and circular, both of which will be sent free of charge. Address
